**TWIN-ENGINE
TWIN ROTOR BRITISH
HELICOPTER TO FLY...**

"BRISTOL" TYPE 173 . . .

After a long period of intensive ground testing the "Bristol Type 173 made a successful maiden flight on January 3, followed next day by a second flight. Britain's first twin engine helicopter, the Bristol Type 173 marks a new era in rotating wing aircraft and its first flight is an important step towards the integration of passenger carrying helicopters into the regular transport network of the British Isles and countries overseas.

OBJECTS OF THE ASSOCIATION

The objects of the Association are to collect complete and disseminate information of a technical and semi technical nature pertaining to Helicopters and all other types of Rotating Wing Aircraft. The Association aims to work in close co operation with existing Aeronautical Bodies on matters affecting its objects and it may act as an Advisory Body in the promotion of legislation calculated to be of benefit to the development of Rotating Wing Aircraft.
