

THE CHANGING WORLD OF ENT EVERY MONTH IN THE JLO

The Journal of Laryngology and Otology was the first British journal in the ENT field. Since 1887, it has remained the definitive information resource for surgeons, consultants and students. The Journal is run as a charity to promote education and knowledge in all spheres of Laryngology, Rhinology, Otology and related fields.

The JLO is very much an international journal with contributors from around the world and readers from over 80 countries.

The JLO contains main Articles, case reports and short communications from all over the world. Other contents include the quarterly book review, selected abstract service, and every ten years there is a comprehensive index issue published.

The Journal has a very good record of publishing up-to-date information; many articles are published within three months of being accepted for publication. As part of our charitable mandate we sponsor Travelling Fellowships for registrars, Visiting Professors who conduct lecture tours of the UK, and the JLO subsidises our Student price to maximise access by the next generation.

By subscribing to the JLO, you not only gain everyday access to this valuable source of information, but also assist in the promotion of excellence in the ENT domain.

☎ To subscribe today fax +44 1233 612345 with your credit card details.

THIRTEENTH FUNCTIONAL ENDOSCOPIC SINUS SURGERY COURSE

AND

KTP/532 WORKSHOP

CME Accredited by BAO-NHS (23 Points)
Approved by European Laser Association (ELA)

Tyrone County Hospital, Omagh, N. Ireland
7–10th September 1999

Guest Faculty: Professor Dinesh Mehta New York

A two day course in Functional Endoscopic Sinus Surgery with hands on nose-sinus endoscopy will instruct the participant with an in-depth account of both morbid and endoscopic anatomy, pathophysiology, diagnosis including imaging techniques and surgical approach with post operative care. Complications and how to prevent them will be discussed in detail.

The course is aided by profuse illustrations, video presentations and live surgery.

The two day KTP/532 workshop aims to instruct the surgeons in both basic concepts and the varied applications in ENT and Head and Neck surgery including tissue interactions of various lasers. The latest techniques with KTP Laser in Tonsillectomy, Functional Endoscopic Sinus Surgery, UP3 and microlaryngeal surgery are discussed by didactic lectures and video presentations.

Live Tonsillectomy surgery will be performed with KTP/532 laser on several patients. The delegates will have 'hands on' training with KTP/532 Laser system with various animal tissue and pig's larynx with micromanipulator.

The course has a limited number of places and these will be allocated on a first come first served basis.

Course Director: Mr S. K. Kaluskar, M.S., F.R.C.S., D.L.O.(Eng.)

COURSES 1999

5th Foundation Course in Middle Ear Surgery

20th–21st September 1999.

A two-day course aimed Specialist Registrar year 1–4. The course will cover the principles and practices of stapedectomy and tympanoplasty supported by tutorials, discussions, videos and practical sessions. The participants will be given "hands on" training on specially designed and temporal bone models during the practical sessions Faculty will include Mr R Mills (Edinburgh), Mr B O'Reilly (Glasgow) and Mr W McKerrow (Inverness), Mr J Crowther (Glasgow), Mr A Kerr (Edinburgh).

Practical Bronchoscopy and Oesophagoscopy with foreign body removal

8th November 1999.

One-day practical course for specialist registrars and SHOs who wish to advance their skills in rigid endoscopy. This is a laboratory based course which concentrates on skills required for rigid and flexible bronchoscopy, oesophagoscopy and foreign body removal. Tutors: Robin L Blair, Paul S White, Rodney E Mountain

This course can be attended solely or in conjunction with:

Percutaneous Tracheostomy under Endoscopic Control

27th May and 9th November 1999.

One-day practical course aimed at Intensivists and Otolaryngologists

Practical Total Laryngectomy Course

10th November 1999.

One-day practical course for Junior Otolaryngology trainees to develop practical skills in laryngectomy surgery. All courses offer small group tuition and laboratory tissue models.

Further details and registration form are available from Julie Struthers, Unit Co-ordinator, Surgical Skills Unit, Ninewells Hospital and Medical School, Dundee DD9 1SY.
Tel: 01382 645857, Fax: 01382 646042.

Marchbanks Measurement Systems

... Listening for better clinical practice

Proven Cochlear and Cerebral Fluid Pressure Analyser

- Nonsurgical and, 'as often as required', cerebral and cochlear pressure assessment
- Differential diagnosis of Ménière's disease and intracranial pressure induced 'Ménière's like' disorders

Tympanic Membrane Displacement Measurements

- Detecting and quantifying pulsatile tinnitus
- Differentiating middle ear myoclonus

Eustachian Tube Analyser

- Quick and easy objective measure of Eustachian tube function

For more information on these innovative products please contact:
