THE
WORLD
ASSOCIATION
OF
DISASTER
AND
EMERGENCY
MEDICINE

**PREHOSPITAL AND
DISASTER MEDICINE (PDM)**

The Official Journal of the World Association
for Disaster and Emergency Medicine
and the Nordic Society of Disaster Medicine

PDM is the only internationally-
focused, peer-reviewed journal that
provides information about meeting
the unforeseen challenges
encountered in Prehospital Care and
Disaster management. Each issue
contains scientific papers written by
leading professionals and educators
from around the world.
WADEM membership includes a
subscription to PDM.

Original Research
Special reports
Comprehensive reviews
Case reports
Calendar of International Congresses

The World Association for Disaster and Emergency Medicine (WADEM) shares the common goal of improving and standardizing the quality of prehospital and emergency care that is available to citizens of all nations. WADEM is dedicated to the ideals of Learning and Practice through a commitment to publishing the journal, Prehospital and Disaster Medicine. WADEM also recognizes the organizations that have shown commitment and dedication in the fields of public education, continuing medical education, scientific research, and analyses of medical field practices.

Bringing Simulation to Life

SimMan®

There is a growing awareness that health care is behind other high risk operations in its attention to ensuring basic safety and that there is a need to grasp the scale of the problem (1,2).

Use of patient simulation is considered an important part of the solution as many scenarios can be presented including uncommon but critical situations where a rapid response is needed. Errors can be allowed to occur and reach their conclusion without any risk to a patient. Team member interactions and leadership can also be explored and developed.

Two manikin-based simulators from Laerdal, SimMan® and AirMan®, represent a new generation of affordable and portable solutions to meet these needs.
