

CLAY MINERALS BULLETIN

Vol. 3 No. 16

DECEMBER, 1956

*Issued by the Clay Minerals Group
of the Mineralogical Society*

CONTENTS

Page

50. I. L. FREEMAN. Variation in the lower zones of the Oxford Clay.
62. F. GONZALEZ GARCIA, A. PEYRO CALLIZO and S. GONZALEZ GARCIA. Mineralogical composition and properties of sedimentary clays from Lebrija (Spain).
68. R. GREENE-KELLY and A. WEIR. A silica spiral thermo-balance for studies on the dehydration of clay minerals.
79. H. G. MIDGLEY and K. A. GROSS. Thermal reactions of smectites.
91. B. D. MITCHELL and W. A. MITCHELL. The clay mineralogy of Ayrshire soils and their parent rocks.
98. H. F. W. TAYLOR and J. W. HOWISON. Relationships between calcium silicates and clay minerals.

Price to non-members 6/-
