THE BOSNIAN CHURCH

New Interpretation

JOHN V. A. FINE, JR.

In this revisionary study, the author refutes the popular image of the Bosnian Church as a primary representative of the neo-Manichean heretical movement that swept across Europe in the Middle Ages. Dr. Fine argues that since Bosnian society consisted mostly of an uneducated peasant class, it is not realistic to treat heresy here as a sophisticated theological movement. In addition, this study describes the attempts of the Catholic Church to destroy the Bosnian Church and the successful Turkish conquest and subsequent Islamization of the country. **East European Monographs.** \$17.50
