

EDITORIAL NOTE

The communication of ideas between the different parts of the Western Hemisphere has never been adequate. It is believed, therefore, that an effort to add to the means for the interchange of ideas will be widely accepted. The *Journal* will publish studies on all aspects of the Americas. These may be submitted in any one of the official languages of the American republics and will be printed in that language. It is hoped that a useful new means for scholarly interchange will be provided thereby and that the *Journal* will occupy a distinctive place among the national and international publications devoted to the humanities and social sciences.

The publication of any article does not imply agreement with interpretations or points of view that may be presented.

All correspondence with the JOURNAL is to be directed to:
