Postmaster: Send address changes to *American Journal of Alternative Agriculture*, 9200 Edmonston Road, Suite 117, Greenbelt, MD 20770-1551.

Wallace Institute Information

The Henry A. Wallace Institute for Alternative Agriculture is a nonprofit, tax-exempt research and education organization established in 1983 to encourage and facilitate the adoption of cost-effective, resource-conserving and environmentally-sound farming methods. It works closely with producer groups, public research and education institutions, and government agencies in promoting a sustainable agriculture system.

Its programs include providing a national information clearinghouse, serving as a voice for sustainable agriculture in Washington, and developing and implementing research and educational outreach programs. It holds an annual scientific symposium and publishes a monthly newsletter.

The Institute is governed by a grass roots Board of Directors, which includes several commercial-scale organic farmers, and maintains a small professional staff. It is supported by memberships and donations and grants from foundations, corporations, and individuals.

Cover Photo

The cover photo shows a pregnant crossbred sow ready to farrow in the hut on pasture at the Iowa State University Western Research Farm near Castana, Iowa. Linking livestock and crop production systems has been a traditional approach to achieving sustainability in the U.S. Corn Belt. Photo by Jack Coyier, ISU Photo Service, Ames, Iowa.
