<b>Editorial</b>	
The local touch <i>A Yngve, M Tseng, I Haapala, G McNeill and A Hodge</i>	943
<b>HOT TOPIC – Local community nutrition</b>	
Socio-economic differences in outdoor food advertising in a city in Northern England <i>J Adams, E Ganiti and M White</i>	945
Shared environments: a multilevel analysis of community context and child nutritional status in Bangladesh <i>DJ Corsi, CK Chow, SA Lear, MO Rahman, SV Subramanian and KK Teo</i>	951
Healthy food availability and participation in WIC (Special Supplemental Nutrition Program for Women, Infants, and Children) in food stores around lower- and higher-income elementary schools <i>JM Tester, IH Yen, LC Pallis and BA Laraia</i>	960
Improving the diet of employees at blue-collar worksites: results from the 'Food at Work' intervention study <i>AD Lassen, AV Thorsen, HM Sommer, S Fagt, E Trolle, A Biloft-Jensen and I Tetens</i>	965
Impact of an intervention on the availability and consumption of fruits and vegetables in the workplace <i>DH Bandoni, F Sarno and PC Jaime</i>	975
'We're not told why – we're just told': qualitative reflections about the Western Australian Go for 2&5 <sup>®</sup> fruit and vegetable campaign <i>OBJ Carter, CM Pollard, JFP Atkins, JM Milliner and IS Pratt</i>	982
Understanding the nutrition information needs of migrant communities: the needs of African and Pacific Islander communities of Logan, Queensland <i>E Williams and N Harris</i>	989
Changes in lifestyle habits after counselling by nurse practitioners: 1-year results of the Groningen Overweight and Lifestyle study <i>NCW ter Bogt, IEJ Milder, WJE Bemelmans, FW Beltman, J Broer, AJ Smit and K van der Meer</i>	995
Healthy food availability and the association with BMI in Baltimore, Maryland <i>SS Casagrande, M Franco, J Gittelsohn, AB Zonderman, MK Evans, MF Kuczmarski and TL Gary-Webb</i>	1001
Healthy eating in early years settings: a review of current national to local guidance for North West England <i>K Bristow, S Capewell, K Abba, M Goodall and F Lloyd-Williams</i>	1008
Reduced food access due to a lack of money, inability to lift and lack of access to a car for food shopping: a multilevel study in Melbourne, Victoria <i>C Burns, R Bentley, L Thornton and A Kavanagh</i>	1017
Food retailer practices, attitudes and beliefs about the supply of healthy foods <i>T Andreyeva, AE Middleton, MW Long, J Luedicke and MB Schwartz</i>	1024
Perceived and objective measures of the food store environment and the association with weight and diet among low-income women in North Carolina <i>AA Gustafson, J Sharkey, CD Samuel-Hodge, J Jones-Smith, MC Folds, J Cai and AS Ammerman</i>	1032
<b>Monitoring and surveillance</b>	
Iron stores in relation to dietary patterns in a multiethnic population: the SAMINOR study <i>AR Broderstad, M Melhus, M Brustad and E Lund</i>	1039
Fruit and vegetable intake in the Czech child population <i>M Jakubikova, M Dofkova and J Ruprich</i>	1047

Contents continued on backmatter

*Public Health Nutrition (PHN)* provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

## Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, including references.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

**Submission:** PHN operates an online submission and reviewing system (eJournalPress). All manuscripts must be submitted online at <http://phn.msubmit.net/>. If any difficulties are encountered, please contact the Publications Office at [phn@nutsoc.org.uk](mailto:phn@nutsoc.org.uk)

**Refereeing:** Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

**Copyright:** At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

**Preparation of manuscripts:** Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

## Disclosure of financial support and any competing interests:

The submission must include a statement within an Acknowledgements section reporting any competing interests, all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

## Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

**Proofs:** Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

**Offprints:** The corresponding author will receive a PDF of the published paper free of charge. Offprints are available to purchase and must be ordered before publication.

P.C. Calder, University of Southampton, UK

*British Journal of Nutrition* is a leading international peer-reviewed journal covering research on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. The journal recognises the multidisciplinary nature of nutritional science and includes material from all of the specialities involved in nutrition research, including molecular and cell biology and the emerging area of nutritional genomics.

Please see [www.fsc.org](http://www.fsc.org) for information. Typeset by Macmillan India Limited, Bangalore, India and Printed in Europe by Bell and Bain, Glasgow.

*Public Health Nutrition* is covered in Science Citation Index Expanded (Web of Science), Current Contents, Agriculture, Biology & Environmental Sciences, Current Contents, Clinical Medicine, CAB ABSTRACTS<sup>®</sup>, Global Health, Index Medicus<sup>®</sup> (MEDLINE<sup>®</sup>), EMBASE, Excerpta Medica, BIOSIS<sup>®</sup> Database and CINAHL<sup>®</sup> Database  
*Public Health Nutrition* participates in the following initiatives: HINARI by WHO and AGORA by FAO.

Contents continued from outside back cover

**Assessment and methodology**

- Feasibility of innovative dietary assessment in epidemiological studies using the approach of combining different assessment instruments 1055  
*A-K Illner, U Harttig, G Tognon, D Palli, S Salvini, E Bower, P Amiano, T Kassik, A Metspalu, D Engeset, E Lund, H Ward, N Slimani, M Bergmann, K Wagner and H Boeing*

**Biological and behavioural determinants**

- Blood pressure and BMI in adolescents in Aracaju, Brazil 1064  
*J Polderman, RQ Gurgel, JAS Barreto-Filho, R Roelofs, RE de O Ramos, JS de Munter, JF Wendte and C Agyemang*
- Parent's responses to nutrient claims and sports celebrity endorsements on energy-dense and nutrient-poor foods: an experimental study 1071  
*H Dixon, M Scully, M Wakefield, B Kelly, K Chapman and R Donovan*

**Social, economic, political and environmental determinants**

- Factors related to household food insecurity in the Republic of Korea 1080  
*K Kim, MK Kim, Y-J Shin and SS Lee*
- Consumer segmentation based on the level and structure of fruit and vegetable intake: an empirical evidence for US adults from the National Health and Nutrition Examination Survey (NHANES) 2005–2006 1088  
*T Demydas*
- Demographic and socio-economic factors related to food intake and adherence to nutritional recommendations in a cohort of pre-school children 1096  
*L Dubois, A Farmer, M Girard, D Burnier and M Porcherie*
- Factors associated with childhood obesity in Spain. The OBICE study: a case–control study based on sentinel networks 1105  
*O Zurriaga, J Pérez-Panadés, JQ Izquierdo, MG Costa, Y Anes, C Quiñones, M Margolles, A Lopez-Maside, AT Vega-Alonso and MTM Espí and Recent OBICE Research Group*
- Predictors of adolescent weight status and central obesity in rural South Africa 1114  
*EW Kimani-Murage, K Kabn, JM Pettifor, SM Tollman, K Klipstein-Grobusch and SA Norris*

**Public policies**

- Banning front-of-package food labels: First Amendment constraints on public health policy 1123  
*TD Lytton*

**Letters to the Editor**

1127

**Corrigendum**

- Feasibility of innovative dietary assessment in epidemiological studies using the approach of combining different assessment instruments – Corrigendum 1129  
*A-K Illner, U Harttig, G Tognon, D Palli, S Salvini, E Bower, P Amiano, T Kassik, A Metspalu, D Engeset, E Lund, H Ward, N Slimani, M Bergmann, K Wagner and H Boeing*
