TABLE OF CONTENTS

| | |
|---|-----|
| Classifying positive equivalence relations. By CLAUDIO BERNARDI and ANDREA SORBI..... | 529 |
| On the number of countable homogeneous models. By LIBO LO | 539 |
| On the expressibility hierarchy of Magidor-Malitz quantifiers. By MATATYAHU RUBIN and SAHARON SHELAH..... | 542 |
| On the interpretation of combinators with weak reduction. By L. V. SHABUNIN | 558 |
| A note on the undefinability of cuts. By J. B. PARIS and C. DIMITRACOPOULOS | 564 |
| Some model theory of modules. I. On total transcendence of modules. By PHILIPP ROTHMALER | 570 |
| Mapping a set of reals onto the reals. By ARNOLD W. MILLER | 575 |
| A selection theorem. By LEFTERIS MILTIADES KIROUSIS | 585 |
| A second paper "On the interpolation theorem for the logic of constant domains". By E. G. K. LÓPEZ-ESCOBAR | 595 |
| Sets constructed from sequences of measures: Revisited. By WILLIAM J. MITCHELL | 600 |
| Degrees of recursively enumerable topological spaces. By IRAJ KALANTARI and J. B. REMMEL | 610 |
| Additive structure in uncountable models for a fixed completion of P . By JULIA F. KNIGHT..... | 623 |
| Some recent developments in higher recursion theory. By SY D. FRIEDMAN | 629 |
| Forcing closed unbounded sets. By URI ABRAHAM and SAHARON SHELAH..... | 643 |
| On forcing without the continuum hypothesis. By URI ABRAHAM..... | 658 |
| Definability of r.e. sets in a class of recursion theoretic structures. By ROBERT E. BYERLY | 662 |
| Forcing in intuitionistic systems without power-set. By R. J. GRAYSON | 670 |
| Some local definability results on countable topological structures. By HOLGER EISENMENGER..... | 683 |
| Orbits of hyperhypersimple sets and the lattice of Σ_3^0 sets. By E. HERRMANN... .. | 693 |
| The τ -theory for free groups is undecidable. By LIBO LO..... | 700 |
| Arithmetical interpretations of dynamic logic. By PETR HÁJEK | 704 |
| Games played on Boolean algebras. By MATTHEW FOREMAN | 714 |
| Forcing and reducibilities. II. Forcing in fragments of analysis. By PIERGIORGIO ODIFREDDI | 724 |
| Hauptsatz for higher-order modal logic. By HIROKAZU NISHIMURA | 744 |
| Incompatible extensions of combinatorial functions. By ERIK ELLENTUCK..... | 752 |
| Closure properties of almost-finiteness classes in recursive function theory. By HEINRICH ROLLETSCHEK | 756 |
| Notions of weak genericity. By STUART A. KURTZ | 764 |

Continued on inside back cover

THE JOURNAL OF SYMBOLIC LOGIC is published quarterly, in the months of March, June, September, and December, by the Association for Symbolic Logic, Inc., 201 Charles Street, Providence, RI 02904. The JOURNAL is the official organ of the Association for Symbolic Logic, an international organization for furthering research in symbolic logic and exchange of ideas among mathematicians, philosophers, and others interested in this field.

Second class postage is paid at Providence, RI. Postmaster: Send address changes to *The Journal of Symbolic Logic*, Association for Symbolic Logic, P.O. Box 6248, Providence, RI 02940.
