

Experimental Agriculture

Editor

Dave Harris, *ICRISAT, Kenya*

Experimental Agriculture publishes the results of original research from any source on the agronomy of field, plantation and herbage crops grown for human or animal food; for industrial purposes; and on systems of agricultural production, particularly in the warmer regions of the world. It is especially concerned with experimental work designed to explain agronomic results in biological and environmental terms. The journal publishes accounts of new experimental techniques, new methods of crop production and discusses problems in countries where production is developing rapidly. There are regular book reviews and occasional, often invited, reviews of research.

JOURNALS

Journal of the Marine Biological Association of the United Kingdom

Published for the Marine Biological Association of the United Kingdom

Executive Editor

Dr. P. R. Dando, The Marine Biological Association of the UK, Plymouth, UK

Editor-in-Chief

Dr. Ann L. Pulsford, The Marine Biological Association of the UK, Plymouth, UK

JMBA is an international journal, publishing original research on all aspects of marine biology. It includes pioneering work on major issues concerning marine organisms and their environment. Subjects covered include: ecological surveys and population studies of marine communities; physiology and experimental biology; taxonomy, morphology and life history of marine animals and plants; and chemical and physical oceanographic work.

Journal of Tropical Ecology

Editor

Ian Turner, Winchelsea, UK

Journal of Tropical Ecology publishes papers in the important and now established field of the ecology of tropical regions, either arising from original research (experimental or descriptive) or forming significant reviews. First published in 1985, *Journal of Tropical Ecology* has become a major international ecological journal. With clear, stimulating and readable reports of recent research findings, the journal provides a platform for the dissemination of information on all aspects of tropical communities and ecosystems

CAMBRIDGE
UNIVERSITY PRESS

Edinburgh Journal of Botany is an international journal of plant systematics. Contributions relating to plant systematics and allied subjects, including biodiversity, conservation science and phytogeography, will be considered. Papers reporting the results of research that link traditional and modern techniques are especially welcomed. **Manuscripts should be sent in electronic form** to ejb@rbge.org.uk. All manuscripts will be subject to multiple peer review before publication. Submitted manuscripts should not have been accepted for publication or be under consideration elsewhere. Authors whose mother tongue is not English should if possible have their papers checked by a fluent or proficient English speaker before submission.

There are no page charges. A PDF offprint will be supplied free of charge. Paper offprints may be purchased through the publisher. Colour plates may be included in the online version free of charge; the cost of including colour plates in the printed version will be charged to the author. Halftone plates are free of charge both online and in print.

Text pages should be numbered serially, with the title and abstract on the first. Genus and species names should be italicised and should be followed by the authority when first used in the main text or in diagnoses. SI (metric) units must be used other than in specimen citations where appropriate. Authors are advised not to return loan material of new taxa until papers have been reviewed. Refer to volume 63 onwards to see how nomenclatural details, typification and specimens seen should be formatted.

The **title page** should include the title, the name(s) and address(es) of the author(s), the abstract, a short running title and a few important keywords. Titles do not normally include authors of scientific names. It will be assumed that correspondence should be addressed to the first author unless otherwise indicated. The **abstract** should be concise and informative, indicating what the paper contains without summarising it.

Author abbreviations should precisely follow: BRUMMITT, R. K. & POWELL, C. E. (eds) (1992). *Authors of Plant Names*. Kew: Royal Botanic Gardens, Kew; KIRK, P. M. & ANSELL, A. E. (1992). *Authors of Fungal Names* [Index to Fungi Supplement]. Wallingford: CAB International.

Herbarium abbreviations should follow: HOLMGREN, P. K., HOLMGREN, N. H. & BARNETT, L. C. (eds) (1990). *Index Herbariorum. Part I: The Herbaria of the World* [Regnum Veg. vol. 120]. New York: New York Botanical Garden. Newer entries can be found at <http://sciweb.nybg.org/science2/IndexHerbariorum.asp>.

Journal abbreviations should follow: BRIDSON, G. D. R., TOWNSEND, S. T., POLEN, E. A. & SMITH, E. R. (eds) (2004). *BPH-2: periodicals with botanical content: comprising a second edition of Botanicoperiodicum-Huntianum*. Pittsburgh: Hunt Institute for Botanical Documentation.

Book title abbreviations should follow: STAFLEU, F. A. & COWAN, R. S. (eds) (1976–88). *Taxonomic Literature*. 2nd edition. 7 vols [Regnum Veg. vols 94, 98, 105, 110, 112, 115, 116]; STAFLEU, F. A. & MENNEGA, E. A. (eds) (1992–). *Taxonomic Literature*. Supplements [Regnum Veg. vols 125, 130, 132], except that all abbreviated words should be capitalised, e.g. Sp. Pl. not Sp. pl.

References in the text should be cited by author and publication date: (Smith, 2009) or ‘as stated by Smith (2009)’. Multiple references should be arranged chronologically. For three or more authors use *et al.* In the **reference list**, references should be in alphabetical order and should appear in the following style:

ZHU, R.-L. & CHENG, X. F. (2008). The status of *Amblyolejeunea* (Lejeuneaceae) from Ecuador and Guadeloupe. *Syst. Bot.* 33: 617–620.

MABBERLEY, D. J. (2008). *Mabberley's Plant-Book: A Portable Dictionary of Plants, Their Classification and Uses*, 3rd edition. Cambridge: Cambridge University Press.

MANN, D. G. & EVANS, K. M. (2007). Molecular genetics and the neglected art of diatomics. In: BRODIE, J. & LEWIS, J. (eds) *Unravelling the Algae: The Past, Present, and Future of Algal Systematics*, pp. 231–265. Systematics Association Special Volume 75. Boca Raton, FL: CRC Press.

Tables should be numbered in arabic numerals and carry a descriptive title. **Figures**, whether line drawings or photographs, should be numbered consecutively in arabic numerals and referred to in the text thus: (Fig. 1), (Figs 2, 3), (Figs 1–4). Line drawings should be scanned in black and white at 600 dpi and photographs at 300 dpi (but correspond with the editor if this should prove problematic) and sent electronically with the manuscript. Please use LZW compression for tif files, remove excess space and elements from around the image, and crop or scale the image to the journal page size (12.5 × 19.5 cm to include caption). A measured scale mark should be included on each illustration to indicate magnification.

CONTENTS

A new subspecies of <i>Omphalodes luciliae</i> (Boraginaceae) from Turkey. R. R. MILL	159
<i>Stubendorffia</i> and <i>Winklera</i> belong to the expanded <i>Lepidium</i> (Brassicaceae). I. A. AL-SHEHBAZ & K. MUMMENHOFF	165
The correct citation and typification of the name <i>Desmos viridiflorus</i> (Annonaceae). I. M. TURNER	173
A new and unusual xerophytic species of <i>Begonia</i> (Begoniaceae) from Peru. M. C. TEBBITT	177
Important Plant Areas in the Arabian Peninsula: 3. 'Uruq Bani Ma'arid. M. HALL, A. G. MILLER, O. A. LLEWELLYN, T. M. AL-ABBASI, R. J. AL-HARBI & K. F. AL-SHAMMARI	183
Important Plant Areas in the Arabian Peninsula: 4. Jabal Aja'. O. A. LLEWELLYN, M. HALL, A. G. MILLER, T. M. AL-ABBASI, A. H. AL-WETAID, R. J. AL-HARBI & K. F. AL-SHAMMARI	199
Nine new species of <i>Begonia</i> (Begoniaceae) from South and West Sulawesi, Indonesia. D. C. THOMAS, W. H. ARDI & M. HUGHES	225
Two new species of <i>Eriocaulon</i> (Eriocaulaceae) from India. S. NAMPY, K. M. MANUDEV & A. K. PRADEEP	257
A new species of <i>Selliguea</i> (Polypodiaceae) from Thailand. P. HOVENKAMP	265
<i>Ficus triviva</i> (Moraceae) redefined. C. C. BERG	269
A floristic description of the San Pastor Savanna, Belize, Central America. J. HICKS, Z. A. GOODWIN, S. G. M. BRIDGEWATER, D. J. HARRIS & P. A. FURLEY	273
New and noteworthy species of <i>Primula</i> (Primulaceae) from China. C. M. HU & G. HAO	297
The <i>Themeda quadrivalvis</i> tall-grass savannah of Oman at the crossroad between Africa and Asia. A. PATZELT	301
<i>Appendicula nicobarica</i> (Orchidaceae – Epidendroideae – Podochileae), a new species from Great Nicobar Biosphere Reserve, India. J. JAYANTHI, R. SUMATHI, K. KARTHIGEYAN & D. NARASIMHAN	321
<i>Book reviews</i>	
<i>Seeds of Amazonian Plants</i> , by Fernando Cornejo & John Janovec	325
<i>Flora Malesiana, Series I. Volume 19. Cucurbitaceae</i> , by W. J. J. O. de Wilde & B. E. E. Duyfjes	327
<i>Flora of Peninsular Malaysia, Series I: Ferns and Lycophytes, Volume 1</i> , edited by B. S. Parris, R. Kiew, R. C. K. Chung, L. G. Saw & E. Soepadmo; <i>Flora of Peninsular Malaysia, Series II: Seed Plants, Volume 1</i> , edited by R. Kiew, R. C. K. Chung, L. G. Saw, E. Soepadmo & P. C. Boyce	328
<i>Natural and Cultural History of the Golfo Dulce Region, Costa Rica</i> , edited by Anton Weissenhofer, Werner Huber, Veronika Mayer, Susanne Pamperl, Anton Weber & Gerhard Aubrecht	330

The cover illustration, drawn by Mary Mendum, is of the diminutive alpine plant *Sibbaldia procumbens*, named in honour of one of the Royal Botanic Garden Edinburgh's founders Robert Sibbald. This plant is used, in a stylised form, as the Garden's official logo.
