Clinical Governance

An International Journal

Clinical Governance: An International Journal aims to address the doubts, queries, triumphs and practical applications of introducing quality assurance mechanisms into the delivery of care.

The journal takes an international stance and covers key developments worldwide which can inform best practice in health care. Efficiency, effectiveness and economics are the main factors in the assessment of best practice and all are addressed in the research- audit- and evidence-based papers published. All papers are peer reviewed to ensure their validity and value to current debates.

The journal publishes:

- Research articles which illustrate clear implications for practice
- Results-focused case studies which discuss problems and successes in clinical governance techniques
- Special issues on topical themes

ICPIC 2011

1st International Conference on Prevention and Infection Control (ICPIC 2011)

29 June – 2 July 2011

Uni Mail, Geneva, Switzerland

ICPIC 2011 will host a very dense program including invited lectures given by top international experts, high level oral presentations according to themed tracks, poster rounds, satellite symposia, and a novel "Innovation Academy", which will act as a forum for leaders of innovations in the practice of infection control and prevention of antimicrobial resistance. The conference is a response to the increasing need to share knowledge and experience in healthcare-associated infection prevention and control on a global basis and already promises to be an exciting and must not miss event!

About SHEA

The Society for Healthcare Epidemiology of America (SHEA) was founded in 1980 to advance the science of healthcare epidemiology and infection prevention. SHEA works to maintain the utmost quality of patient care and healthcare worker safety in all healthcare settings, applying epidemiologic principles and prevention strategies to a wide range of quality-of-care issues. SHEA is strengthened by its active membership in all branches of medicine, public health, and healthcare epidemiology. The Society's expertise is sought by healthcare regulatory and accrediting agencies, and its scientific voice is influential in guiding decision-making bodies towards rational, effective, cost-conscious policies.

Mission

SHEA's mission is to prevent and control healthcare-associated infections and advance the field of healthcare epidemiology.

Please contact info@shea-online.org with membership inquiries.

We're taking hand hygiene dispensing to the next generation

We know one of your biggest challenges to hand hygiene compliance is effective dispensing. We set out to address these challenges by delivering new solutions that take convenience, versatility and performance to the next level. Our next-generation manual and touch-free options allow you to dispense our comprehensive product line of foams, gels or liquids without changing the dispenser, and now you can get Quik-Care® Foam Hand Sanitizer as a non-aerosol. Backed by the personal service and support you've come to expect, Ecolab's latest dispensing technology delivers advances unlike any other you've seen.
