

# 2007 CAEP/ACMU Scientific Abstracts

## Key Word Index

<b>kKEY WORD</b>	<b>ABSTRACT No.</b>				
		central venous catheterization	197	ED management	132
		cervical spine injury	9	ED utilization	140
		cervical-spine	26, 27	EDTU	194
<b>A</b>		chest x-ray	210	education	2, 12, 13, 16, 17, 137, 176, 177
abdominal pain	18	clarithromycin	48	electronic prescription	29
access block	206	clinical decision rule	149	EM curriculum	108, 109, 100, 133, 134
acetaminophen	181	clinical decision support	124, 125	emergency	37
acetaminophen overdose	30	clinical practice guidelines	132	emergency department (ED)	
acute stroke	188	clinical severity scores	21	utilization	157, 158
administration	15, 135	community	32	emergency department	
admitted patients	156	compliance	141, 150	targeted ultrasonography	147
advanced life support	20	complications	197	emergency medical services	15, 161
adverse drug effects	11, 31	computed tomography angiography	207	emergency medicine	19
adverse events	33, 34, 153	computer modeling	123	emergency medicine training	16, 17
AECOPD	48	computerized	202	EMS	47, 26
aerochamber	130	computerized decision support	23	epidemiology	145, 146
alcohol	170	consent	141	escalator related injuries	107
ALS	47	consultations	148	ethics	141
alternate payment	205	COPD	5, 131, 132		
aminotransferase	30	corneal abrasion	7	<b>F - G</b>	
analgesia	7, 18, 153	coronary artery disease	126, 128, 129	fee-for-service	205
ankle x-ray	211	cough	210	Fentanyl	46, 153
antibiotic treatment	103	CPR	2, 4, 128	fever	186
anticipatory guidance	184	critical care	182, 199	fracture risk	172
anticonvulsants	20	C-Spine	208	gastroenteritis	22
appendicitis	18, 185	CT scan	24, 167, 196	geographic patterns	140
assessment	136	CTAS	161, 186, 191	guidelines	124, 125
asthma	21, 130	curriculum	12, 13		
atrial fibrillation	3			<b>H</b>	
atrial flutter	3	D	25, 207	handhelds	137
attitudes	142	decision rule	9, 24, 168, 208, 210, 211	head injury	9, 24
		defibrillation	128	helmets	216
<b>B</b>		dehydration	22	hepatotoxicity	30
bag-valve	44	diagnosis	24	homelessness	13, 14
base therapy	182	diagnostic test	19, 25	hospital admission	143
benchmark	144	diagnostics	154	hospital beds	42
best practice	187, 188	diazepam	20	hospital care	11
beta blockers	1	difficult airway	175	hospitalization rates	154
B-HCG	214	discharge advice	150, 152	hypothermia	127
bicycle injuries	216	discharge diagnosis	203	hypoxic brain injury	127
billing	205	discharge prescriptions	166		
blood alcohol levels	215	dispatch	163	<b>I - J</b>	
blood culture	100	disposition	22	ICD-10	203
BLS	47	dissemination	167	ICU	216
		documentation	152, 197	imaging	196
<b>C</b>		doxycycline	48	impaired driving	170
Canadian C-Spine rule	27, 26, 28	drug related	11, 34	implementation	167, 208
Canadian urban hospitals	35	DVT	25	incident reports	192
capacity deficit	206	E		induced renal failure	105
capnography	6	ectopic	194	infants	186
cardiac arrest	2, 127, 128, 177	ED administration	123	infection control	101
cardioversion	3	ED efficiency	120	infectious disease	100, 101, 102, 103
CCHR	167	ED follow-up	126	inhalational therapy	130
CCR	172			injury	172, 183
central line	197				
central line placement	133				

injury prevention	8, 107	pain scales	185	S	
interchangability	185	paramedics	44, 162, 163	safety culture	193
internship	138	patient compliance	126	SARS	102
inter-rater reliability	159	patient flow	36	secondary prevention	187
intimate partner violence	106	patient safety	192, 193	sedation	151, 153
intrauterine pregnancy	147	PCTI	43	seizures	20
<b>K - L</b>					
Ketamine	46	pediatrics	120, 136, 154, 184, 185, 200, 201, 213,	selection criteria	14
knowledge transfer	24	performance	14	self-assessment	175
knowledge translation	149	performance indicators	200	sexual assault	195
liaison physician	39, 155	pharmacy	11	SFSR	168
logging	137	physical activity	183	short-term risk	189
long-term care	156	physician practice	199	shoulder dislocation	171
low acuity	191	physician workload	37, 38	shoulder reduction	171
<b>M</b>					
management	188	pneumonia	100	simulation	176
mechanism	172	population health	10	skills	136
medical education	106, 108, 109, 110, 133, 134, 175	predictors	181	socio-economic status (SES)	157
medical error	104, 192	pregnancy	194, 214	sodium bicarbonate	182
medical informatics	120, 122, 123, 124, 125	prehospital	15, 164	specialized nurses	195
methodology	165	prehospital bypass protocol	43	spousal abuse	106
midazolam	151	preparedness	177	STEMI	43
minor head injury	28	prescription	31, 150	streaming media	138
morphine	18	prescription medication	122	strep pharyngitis	19
motor vehicle collision	170, 215	prescription-filling	166	stroke	162, 187, 189, 209
MPD	161	prevention	184	suicide	10
MRSA	101, 103	prevention	187, 189	superiority	165
myocardial infarction	1, 129	procainamide	3	survey	142, 148
<b>N</b>					
N-acetylcysteine, contrast	105	procedural sedation	6, 33, 46	syncope	168
naloxone	32	procedural skills	176	systematic review	105, 168
narcotic	29	procedures	17		
narcotic overdose	32	professional development	135	<b>T</b>	
near misses	104	program impact	195	third world	145, 146
nebulizer	130	proparacaine	7	thrombolysis	129
New Orleans criteria	28	Propofol	6, 46, 151, 153, 162	throughput	198
non-inferiority	165	psychiatric impact		TIA	189
non-urgent	191	of disease	102	time to assessment	144
nurse practitioners	198	public health	2, 4	time to treatment	129
nurses	27, 158, 149	pulmonary embolism	207	toxicity	181
<b>O</b>		qualitative	164, 193	toxicology	181
obesity	184	quality assurance	200	traffic accidents	213
offload times	163	<b>R</b>		trainees	13
organized sports	183	RCT	165	training	135, 136
outcomes	33, 209	recovery times	151	transfer times	212
outpatient management	131	refugees	146	transient ischemic attack	209
overcapacity	40	relapse	48, 131	trauma	213, 214
overcrowding	5, 35, 36, 39, 40, 41, 42, 155, 156, 157, 158, 204, 206	reliability	202	trauma services	212
oximetry	6	renal colic	196	treatment times	198
<b>P - Q</b>		research priorities	164	triage	23, 37, 38, 39, 40, 41, 154, 155, 159, 161, 202
paediatrics	18, 19, 20, 21, 22, 23	residency	14	triage level	143, 144, 186
		residency training	108, 109, 133, 134	<b>U - Z</b>	
		residents	177	ultrasonography	12, 194
		resource utilization	154	undergraduate training	110
		resuscitation	176, 177, 199	urolithiasis	196
		return visit	201	validation	166
		revascularization	129	ventilation	44
		rural	140, 143, 144, 145, 204	violence	8
		rural ED	191	wait times	171, 195
				web-based education	138
				youth	8
