PERTURBATIONS OF A ROTATING BLACK HOLE

SAUL A. TEUKOLSKY

California Institute of Technology, Pasadena, Calif., U.S.A.

Abstract. Decoupled, separable wave equations describing neutrino, electromagnetic and gravitational perturbations have been derived (Teukolsky, 1972, 1973). A number of applications have been made (Press and Teukolsky, 1973; Starobinsky and Churilov, 1973).
