

CONTENTS

	PAGE
McROBERTS, M. R., HILL, R. and DALGARNO, A. C. The effects of diets deficient in phosphorus, phosphorus and vitamin D, or calcium, on the skeleton and teeth of the growing sheep. I. The mineral status of the skeleton and clinical appearance of the teeth. (With Two Plates)	1
McROBERTS, M. R., HILL, R. and DALGARNO, A. C. The effects of diets deficient in phosphorus, phosphorus and vitamin D, or calcium, on the skeleton and teeth of the growing sheep. II. Malocclusion of the teeth. (With Two Plates and Two Text-figures)	11
McROBERTS, M. R., HILL, R. and DALGARNO, A. C. The effects of diets deficient in phosphorus, phosphorus and vitamin D, or calcium, on the skeleton and teeth of the growing sheep. III. The composition and structure of the teeth. (With One Plate)	15
McROBERTS, M. R., HILL, R. and DALGARNO, A. C. The effects of diets deficient in phosphorus, phosphorus and vitamin D, or calcium, on the skeleton and teeth of the growing sheep. IV. The uptake of radioactive phosphorus by the bones and teeth	21
ARNOLD, M. H. The control of bacterial blight in rain-grown cotton. II. Some effects of infection on growth and yield. (With One Plate and Five Text-figures)	29
FORD, E. J. H. The effect of diet on glucose utilization by sheep	41
WIDDOWSON, F. V., PENNY, A. and WILLIAMS, R. J. B. Experiments comparing concentrated and dilute NPK fertilizers and four nitrogen fertilizers on a range of crops	45
THWAITES, C. J. Photoperiodic control of breeding activity in the Southdown ewe with particular reference to the effects of an equatorial light regime. (With Two Text-figures)	57
LAZENBY, A. and ROGERS, H. H. Selection criteria in grass breeding. IV. Effect of nitrogen and spacing on yield and its components. (With Seven Text-figures)	65
LAZENBY, A. and ROGERS, H. H. Selection criteria in grass breeding. V. Performance of <i>Lolium perenne</i> genotypes grown at different nitrogen levels and spacings. (With Two Text-figures)	79
LANG, R. W. and HOLMES, J. C. The effect of plant population and distribution on the yield and quality of swedes. (With Five Text-figures)	91
LARGE, R. V. The artificial rearing of lambs. (With Two Plates and Three Text-figures)	101
REID, D. and CASTLE, M. E. The response of grass-clover and pure-grass leys to irrigation and fertilizer nitrogen treatment. II. Clover and fertilizer nitrogen effects. (With Five Text-figures)	109
JONES, D. J. C. The effects of advancing season on the chemical composition of marrow stem kale	121
JONES, L. H. P. and HANDRECK, K. A. The relation between the silica content of the diet and the excretion of silica by sheep	129
SALMON, R. C. Release of non-exchangeable potassium from some Rhodesian soils cropped with grass. (With Three Text-figures)	135

The Journal of Agricultural Science is issued every other month in parts of about 150 pages with plates and figures, three parts constituting a volume. Two volumes yearly.

Quotations for available back volumes and parts may be obtained on application to the Cambridge University Press.

Papers for publication should be typewritten or written in a very legible hand, and may be sent to Dr G. D. H. BELL, Plant Breeding Institute, Maris Lane, Trumpington, Cambridge, or to the Associate Editors. Other communications should be addressed to the University Press, Cambridge.

If Plates in excess of one per 24 pages of text or coloured plates are submitted the author may be asked to bear the cost of such Plates.

The lettering on text figures should be clear of the illustration and indicating by blue pencilled lines the desired position.

Bibliography should be given in the form of 'References' in the following form:

Surname of authors (in alphabetical order), initials, date of publication (in brackets), title of Journal (abbreviated according to the *World List of Scientific Periodicals*), volume and page of reference. In the text a reference should be quoted by the author's name and date (in brackets).

All names of Journals and books are set in italics; they should be indicated on the typescript by underlining.

Contributors will receive twenty-five copies of their papers free.

The subscription price, payable in advance, is 75s. net per volume (post free); single numbers 32s. 6d. net. Subscriptions may be sent to any bookseller, or to The Cambridge University Press, Bentley House, 200 Euston Road, London, N.W. 1.

Subscription price in the U.S.A. is \$13.50 per volume; single numbers \$5.50. Enquiries should be addressed to the Cambridge University Press, American Branch, 32 East 57th Street, New York, N.Y. 10022.
