Email: marjukka.makela@thl.fi

**Aims and Scope:** The *International Journal of Technology Assessment in Health Care* has as its specific scope of interest the generation, evaluation, diffusion, and use of health care technology. It addresses the diverse audience of health care providers within medicine, public health, nursing, and the allied health professions; decision makers in government, industry, and health care organizations; and the scholarly disciplines such as ethics, economics, law, history, sociology, psychology, and engineering. The journal aims to fill the needs of those interested in the complexities of interaction between people and technology; technology as a force in social and organizational change; and technology as it is created, produced, applied, and paid for. It examines descriptively and analytically the effects of technology as perceived from the vantage point of different academic disciplines and policy-making organizations and examines methods necessary to conduct studies and evaluations of technology.

The focus of the journal is the international health care community. The experience of different countries in their encounter with health care technology, viewed comparatively, is invaluable to understanding its effects. Further, it is important to establish ties with the scholars, governments, and private institutions concerned with health care technology so that the experiences and learning of the international community in its parts can benefit the whole. The use of technology in health care has created some of the major dilemmas in society today. The journal serves as a forum for the wide range of professionals interested in the assessment of medical technology, its consequences for patients, and its impact on society.

**Publishing, Advertising, and Subscription Offices:** Cambridge University Press, 32 Avenue of the Americas, New York, NY 10013-2473, U.S.A. (for U.S.A., Canada, and Mexico); or Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, UK (for U.K. and elsewhere).

**2010 Subscription Information:** *International Journal of Technology Assessment in Health Care* (ISSN 0266-4623) is published quarterly in January, April, July, and October by Cambridge University Press, 32 Avenue of the Americas, New York, NY 10013-2473; Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, UK. Annual institutional subscription rates for Volume 26 (2010): Print and online US

\$515.00, online only US \$431.00, and print only US \$467.00 in the U.S.A., Canada, and Mexico; Print and online UK £286.00, online only UK £243.00, and print only UK £260.00 elsewhere. Individual rates: Print and online US \$245.00 and print only US \$223.00 in the U.S.A., Canada, and Mexico; Print and online UK £143.00 and print only UK £123.00 elsewhere. Prices include postage; air mail or registered mail is extra. Single part: US \$120.00 in the U.S.A., Canada, and Mexico; UK £67.00 elsewhere. Back volume prices are available upon request. *International Journal of Technology Assessment in Health Care* and other Cambridge journals can be found at <http://journals.cambridge.org>

## CONTENTS

### EDITORIAL

- 131 Technology on probation  
*Gert J. van der Wilt*

### ASSESSMENTS

- 133 Economic evaluation of enhanced staff contact for the promotion of breastfeeding for low birth weight infants  
*Stephen J. C. Rice, Dawn Craig, Felicia McCormick, Mary J. Renfrew, and Anthony F. Williams*
- 141 Study of progesterone for the prevention of preterm birth in twins (STOPPIT): Findings from a trial-based cost-effectiveness analysis  
*Oya Eddama, Stavros Petrou, Dean Regier, John Norrie, Graeme MacLennan, Fiona Mackenzie, and Jane E. Norman*
- 149 Telemedicine in acute stroke management: Systematic review  
*Tim Johansson and Claudia Wild*
- 156 Measuring the influence of colleagues on a consultant team's use of breast conserving surgery  
*Andrew R. Hoy, Hannah Patrick, Bruce Campbell, and Georgios Lyratzopoulos*
- 163 Budget impact analysis of trastuzumab in early breast cancer: A hospital district perspective  
*Timo T. Purmonen, Päivi K. Auvinen, and Janne A. Martikainen*
- 170 Economic analysis of endobronchial ultrasound (EBUS) as a tool in the diagnosis and staging of lung cancer in Singapore  
*Shin Yuh Ang, Rachel Woo Yin Tan, Mariko Siyue Koh, and Jeremy Lim*
- 175 Cost-effectiveness of enhanced external counterpulsation (EECP) for the treatment of stable angina in the United Kingdom  
*Claire McKenna, Neil Hawkins, Karl Claxton, Catriona McDavid, Sara Suekarran, Kate Light, Michael Chester, John G. F. Cleland, Nerys Woolcott, and Mark Sculpher*
- 183 Human papillomavirus transmission and cost-effectiveness of introducing quadrivalent HPV vaccination in Denmark  
*Jens Olsen and Martin Rudbeck Jepsen*

### POLICIES

- 192 Does the public think it is reasonable to wait for more evidence before funding innovative health technologies? The case of PET scanning in Ontario  
*Roger Chafe, Farhan Merali, Andreas Laupacis, Wendy Levinson, and Doug Martin*
- 198 Dear policy maker: Have you made up your mind? A discrete choice experiment among policy makers and other health professionals  
*Marc A. Koopmanschap, Elly A. Stolk, and Xander Koolman*
- 205 Increasing rational use of cholinesterase inhibitors for Alzheimer's disease in Brazil: Public health strategy combining guideline with peer-review of prescriptions  
*Paulo Dornelles Picon, Ana Luiza Camozzato, Elaine A. Lapporte, Rafael V. Picon, Humberto Moser Filho, Maria Otília Cerveira, and Márcia L. F. Chaves*

## METHODS

- 211** Keys to a successful and sustainable telemedicine program  
*Pamela Whitten, Bree Holtz, and Lianh Nguyen*
- 217** Setting priorities in clinical and health services research: Properties of an adapted and updated method  
*Silvina Berra, Emília Sánchez, Joan M. V. Pons, Cristian Tebé, Jordi Alonso, and Marta Aymerich*

## LETTERS TO THE EDITOR

- 225** HTA in the United Kingdom  
*John Gabbay*
- 225** HTA in the United Kingdom: Response  
*Michael Drummond and David Banta*
- 226** Harmonizing HTA  
*Iris Pasternack, Kristian Lampe, Chris de Laet, Irina Cleemput, Mattias Neyt, Claudia Wild, and Finn Børllum Kristensen*

## THEME SECTION: OPTIONS FOR IMPROVING MALARIA TREATMENT

- 228** Options for improving malaria treatment: Introduction  
*Guest editors: Andrew D. Oxman, Ambachew M. Yohannes, and John-Arne Røttingen*
- 229** EVIPNet Africa's first series of policy briefs to support evidence-informed policymaking  
*John N. Lavis and Ulysses Panisset*
- 233** Policy brief on improving access to artemisinin-based combination therapies for malaria in Burkina Faso  
*Bocar Kouyaté and Victor Nana*
- 237** Policy brief on improving access to artemisinin-based combination therapies for malaria in Cameroon  
*Pierre Ongolo-Zogo and Renée-Cécile Bonono*
- 242** Policy brief on improving access to artemisinin-based combination therapies for malaria in Central African Republic  
*Gérard Gresenguet, Méthode Moyen, Boniface Koffi, and Jean Pierre Bangamingo*
- 246** Policy brief on improving access to artemisinin-based combination therapies for malaria control in Ethiopia  
*Amha Kebede, Adugna Woyessa, Kelbessa Urga, Tsehaynesh Messelle, and Daddi Jima*
- 250** Policy brief on improving access to artemisinin-based combination therapies for malaria in Mozambique  
*Francisco Mbofana, Gertrudes Machatine, and Celeste Moreira*
- 255** Policy brief on improving access to artemisinin-based combination therapies for malaria in the East African community  
*Harriet Nabudere, Gabriel L. Upunda, and Malick Juma*
