October 1912

MATHEMATICAL NOTES

A Review of Elementary Mathematics and Science

PUBLISHED BY THE

EDINBURGH

MATHEMATICAL SOCIETY

EDITED BY

P. PINKERTON, M.A., D.Sc.

Edinburgh:

Printed for the EDINBURGH MATHEMATICAL SOCIETY *by*
LINDSAY & CO., 17 BLACKFRIARS STREET.

1912.

CONTENTS.

	PAGE
A Puzzle of Dr Whewell's <div style="text-align: center; margin-top: 10px;">J. S. MACKAY, M.A., LL.D.</div>	121
On the Solubility of Linear Algebraic Equations <div style="text-align: center; margin-top: 10px;">JOHN DOUGALL, M.A., D.Sc.</div>	125
Notes on Algebraic Inequalities <div style="text-align: center; margin-top: 10px;">R. F. MUIRHEAD, B.A., D.Sc.</div>	129
Cauchy's Condensation Test <div style="text-align: center; margin-top: 10px;">ROBERT VICKERS, M.A., B.Sc.</div>	132
To show that the equation $\begin{vmatrix} x-a & f & e \\ f & x-b & d \\ e & d & x-c \end{vmatrix} = 0$ has three real roots <div style="text-align: center; margin-top: 10px;">H. SPENCER JONES, B.A., B.Sc.</div>	133

All contributions and communications referring to "MATHEMATICAL NOTES" should be addressed to P. PINKERTON, George Watson's College, Edinburgh.
