# Social Research in the Judicial Process

## Cases, Readings, and Text

**Wallace D. Loh**, Professor of Law and Adjunct Professor of Psychology at the University of Washington

This major new analysis of law and the social sciences provides a comprehensive introduction to applied social-legal studies. The distinctive casebook format, adapted for use by social science students as well as law students, weaves together empirical research, judicial opinions, original text, and extensive editorial notes. A unique and flexible teaching volume, *Social Research in the Judicial Process* is designed to build new interdisciplinary skills and to cultivate an informed awareness of the possibilities and limits of social science in the courts.

**“This book should be widely adopted.** Loh shows law students what social science has to offer and introduces social science students to some major legal problems. A significant achievement.”—Malcolm M. Feeley, Professor of Law, University of California, Berkeley

“Through rich analytical text and aptly-selected readings, Professor Loh asks and probes key questions about the roles, reliability, locus, and impact of social science in law. **The book serves superbly as spur and guide to integrative work** by the two disciplines in ways both feasible and functional.”—Victor Rosenblum, Professor of Law and Political Science, Northwestern University

**“I have used the book, and it works.”**—Stewart Macaulay, President-Elect, Law and Society Association
