

INDEX OF AUTHORS

Anantharaman, K.	183, 199	Goodall, E. D.	261, 281	Reid, R. S.	281
Annison, E. F.	207	Green, J.	165	Sims, R. T.	229
Ballester, D.	255	Hill, K. J.	207	Spray, G. H.	297
Barja, I.	255	Johnson, V. W.	303	Stephen, J. M. L.	153
Billewicz, W. Z.	307	Kay, R. N. B.	261, 281	Sutherland, H. A. M.	217
Bunyan, J.	165	Kenworthy, R.	207	Sutton, J. D.	303
Carpenter, K. J.	183, 199	Langlands, J. P.	217	Thomson, A. M.	307
Cawthorne, M. A.	165	Lennox, A. M.	237, 247	Topps, J. H.	261, 281
Chan, H.	315	Lough, A. K.	237	Whitelaw, F. G.	281
Chatterjee, K. K.	145	Mukherjee, K. L.	145	Williams, D. L.	297
Davidson, J.	291	McGregor, I. A.	307	Williams, R. B.	291
Diplock, A. T.	165	Nesheim, M. C.	199	Yáñez, E.	255
Donoso, G.	255				
Garton, G. A.	237, 247				

FORTHCOMING PAPERS

The next issue of *The British Journal of Nutrition* will appear in September. It is hoped to publish in it the following papers:

- Transaminase activity in the rumen liquor of sheep. By ABDUR REKIB and D. P. SADHU.
- The effect of tungstate ingestion on xanthine oxidase in milk and liver. By E. C. OWEN and R. PROUDFOOT.
- An investigation of very low calorie intakes reported in Jamaica. By ANN ASHWORTH.
- Severe undernutrition in growing and adult animals. 18. The effects of rehabilitation on the teeth and jaws of pigs. By R. A. MCCANCE, P. W. A. OWENS and C. H. TONGE.
- The fate of water in the rumen. 1. A critical appraisal of the use of soluble markers. By A. C. I. WARNER and B. D. STACY.
- The fate of water in the rumen. 2. Water balances throughout the feeding cycle in sheep. By A. C. I. WARNER and B. D. STACY.
- Serum enzyme changes, muscular dystrophy and erythrocyte abnormalities in lambs fed on diets containing cod-liver oil and maize oil, and the therapeutic effect of vitamin E. By J. W. BOYD.
- The concentration of α -tocopherol and ubiquinone in tissues of calves suffering from muscular dystrophy. By RITVA POUKKA.
- Phospholipid composition of tissues in calves suffering from nutritional muscular dystrophy. By RITVA POUKKA.
- A collaborative test of ion-exchange chromatographic methods for determining amino acids. By J. W. G. PORTER, D. R. WESTGARTH and A. P. WILLIAMS.
- The biological evaluation of urea, casein and gluten in the diets of sheep. By H. I. DEIF, K. el-SHAZLY and A. R. ABOU AKKADA.
- Effect of hypervitaminosis A on rats: observations on growth and liver storage of vitamin A. By U. K. MISRA.
- Measurements of lipid peroxidation and β -tocopherol destruction in vitro and in vivo and their significance in connexion with the biological function of vitamin E. By A. T. DIPLOCK, M. A. CAWTHORNE, ELSPETH A. MURRELL, J. GREEN and J. BUNYAN.
- The effect of diet on the composition and positional distribution of the fatty acids in the triglycerides obtained from the adipose tissues of rabbits. By J. H. MOORE and D. L. WILLIAMS.
- The course of digestion of food proteins in the rat. Fractionation of the nitrogen in intestinal contents. By TERESA ZEBROWSKA.
- Intestinal synthesis of vitamins of the B complex in chicks. By MARIE E. COATES, J. E. FORD and G. F. HARRISON.
- Absorption of sugars by the piglet. By D. E. KIDDER, M. J. MANNERS, M. R. MCCRAE and A. D. OSBORNE.
- Polyethylene glycol as a marker in piglet diets with a high dry-matter content. By M. J. MANNERS and D. E. KIDDER.

Br. J. Nutr.

The British Journal of Nutrition

Volume 22 No. 2 1968

CONTENTS

Phospholipids of the liver in children suffering from protein-calorie undernutrition. By K. K. CHATTERJEE and K. L. MUKHERJEE	145-151
Adaptive enzyme changes in liver and muscle of rats during protein depletion and refeeding. By JOAN M. L. STEPHEN	153-163
Vitamin E and stress. 8. Nutritional effects of dietary stress with silver in vitamin E-deficient chicks and rats. By J. BUNYAN, A. T. DIPLOCK, M. A. CAWTHORNE and J. GREEN	165-182
The nutritional value of poor proteins fed at high levels. 1. The growth of rats. By K. J. CARPENTER and K. ANANTHARAMAN	183-197
The nutritional value of poor proteins fed at high levels. 2. Species differences. By K. ANANTHARAMAN, K. J. CARPENTER and M. C. NESHEIM	199-205
Volatile fatty acids in the digestive tract of the fowl. By E. F. ANNISON, K. J. HILL and R. KENWORTHY.	207-216
An estimate of the nutrients utilized for pregnancy by Merino sheep. By J. P. LANGLANDS and H. A. M. SUTHERLAND	217-227
The measurement of hair growth as an index of protein synthesis in malnutrition. By R. T. SIMS	229-236
Observations on the nature and origin of lipids in the small intestine of the sheep. By AILEEN M. LENNOX, A. K. LOUGH and G. A. GARTON	237-246
The absorption of long-chain fatty acids from the small intestine of the sheep. By AILEEN M. LENNOX and G. A. GARTON	247-254
Protein-rich mixtures for human consumption based on fish flour, sunflower presscake meal, dried skim milk and wheat flour. By DIGNA BALLESTER, ITA BARJA, E. YÁÑEZ and G. DONOSO	255-259
Digestion of concentrate and of hay diets in the stomach and intestines of ruminants. 1. Sheep. By J. H. TOPPS, R. N. B. KAY and E. D. GOODALL	261-280
Digestion of concentrate and of hay diets in the stomach and intestines of ruminants. 2. Young steers. By J. H. TOPPS, R. N. B. KAY, E. D. GOODALL, F. G. WHITELAW and R. S. REID	281-290
A note on the estimation of nitrogen retention in chicks by body analysis and balance methods. By J. DAVIDSON and R. B. WILLIAMS	291-295
The absorption of [⁵⁷ Co]cyanocobalamin by unweaned rats. By D. L. WILLIAMS and G. H. SPRAY	297-301
The continuous recording of the pH in the bovine rumen. By V. W. JOHNSON and J. D. SUTTON	303-306
The development of primary teeth in children from a group of Gambian villages, and critical examination of its use for estimating age. By I. A. MCGREGOR, A. M. THOMSON and W. Z. BILLEWICZ	307-314
Adaptation of urinary nitrogen excretion in infants to changes in protein intake. By H. CHAN	315-323
