Sealed Phial of Diphtheria Antitoxic Serum, Wellcome

TELEGRAPHIC CODE WORD adopted by Burroughs Wellcome & Co.

MURES signifies Diphtheria Antitoxic Serum ('Wellcome'), 2,000 units

Thus a telegram reading "'Tabloid, London,' send six 'Mures,'" would be understood to mean "Burroughs Wellcome & Co., London, send six phials of Diphtheria Antitoxic Serum ('Wellcome'), each phial containing 2,000 (Ehrlich-Behring) units." If the 1,000 units Diphtheria Antitoxic Serum ('Wellcome') be desired, it should be specially indicated as "'Mures', 1,000 units." If a high potency Serum be required, the telegram should read "'Mures', 2,000 in 2 c.c.," or "'Mures', 4,000 in 4 c.c.," etc., as the case may be.

The Serum may be obtained through any chemist or direct from
