Long recognised as the principal source on current trends in design and the applied arts worldwide, **design and applied arts index** is now also available on CD-ROM, making it an indispensable resource not only for students, historians and librarians, but also for working designers and craftspeople.

**daai on CD-ROM** contains over 100,000 annotated references from more than 400 design and craft journals published between 1973-1997, making it the largest database of its kind in the world. It also includes data on nearly 40,000 designers, craftspeople, studios, workshops, firms etc.

At least 10,000-12,000 new references are added annually.

## Special Features of daai on CD-ROM

*daai on CD-ROM has a number of unique special features. These include:*

- Four supplementary databases - international directories of design and craft courses, design and craft organisations, design and craft periodicals and design and craft archives
- A simple one-stop search facility
- An on-screen tutorial
- Search screen texts in English, French and German
- Glossaries in French and German of the key terms used in **daai on CD-ROM**
- A text-to-talk facility - the text can be read to you - a feature of value to partially-sighted and dyslexic users
- An Internet link to Web sites on **daai on CD-ROM**. The latest issue contains nearly 1,000 Internet links
- In-built networking, which will allow you to share **daai on CD-ROM** with other users, without needing a file-server on your network
