

BULLETIN

Volume **22 (1980)**
of the Australian Mathematical Society
Number 1

G. M. Kelly	<i>A unified treatment of transfinite constructions for free algebras, free monoids, colimits, associated sheaves, and so on</i>	1
N. N. Chourasia	<i>Quasi-similarity orbit of a subclass of compact operators on a Hilbert space</i>	85
W. J. Robertson, I. Tweddle and F. E. Yeomans	<i>On the stability of barrelled topologies, III</i>	99
J. L. Brenner and James Wiegold	<i>Two-generator groups II</i>	113
William H. Cornish	<i>An ordered sheaf representation of subresiduated lattices</i>	125
James B. McGuire and Colin J. Thompson	<i>Distribution of iterates of first order difference equations</i>	133
P. Kanniappan and Sundaram M. A. Sastry	<i>A duality theorem for nondifferentiable convex programming with operatorial constraints</i>	145
Joachim Heinze	<i>A remark on a paper of V. K. Srinivasan</i>	153
Abstracts of Australasian PhD theses		
Josephine A. Ward (née Goodall)	<i>Banach spaces of pseudomeasures on compact groups with emphasis on homogeneous spaces</i>	155
Moshe S. Goldberg	<i>Distributive ρ-algebras and Ockham algebras: a topological approach</i>	159

BULLETIN OF THE AUSTRALIAN MATHEMATICAL SOCIETY

Editor: Sidney A. Morris
Deputy Editor: K. R. Pearson
Honorary Editor: B. H. Neumann

Associate Editors

Robert S. Anderssen	D. A. Holton	Leon Simon
Alan L. Andrew	D. C. Hunt	G. Szekeres
B. D. Craven	J. S. Maritz	D. G. Tacon
Brian A. Davey	Rodney Nillsen	Colin J. Thompson
G. E. Davis	A. J. van der Poorten	H. B. Thompson
J. R. J. Groves	Ian Robinson	R. F. C. Walters
	J. H. Rubinstein	

Assistant Editors

Robert S. Anderssen M. S. Brooks

INFORMATION FOR AUTHORS

The BULLETIN of the Australian Mathematical Society aims at quick publication of original research in all branches of mathematics. Timely expository articles are also welcomed.

To ensure speedy publication, editorial decisions on acceptance or otherwise are taken quickly, normally within a month of receipt of the paper. Papers are accepted only after being evaluated by the Editor and an Associate Editor or another expert. Of course responsibility for the correctness of results published in the BULLETIN remains with the authors.

For a paper to be acceptable for publication, not only should it contain new and interesting results but also

- (i) the exposition should be clear and attractive, and
- (ii) the manuscript should be in publishable form, without revision.

Nevertheless some meritorious papers will have to be rejected because speed of publication involves space limitations.

Authors should submit THREE clean, high quality copies to

The Editor,
Bulletin of the Australian Mathematical Society,
Department of Pure Mathematics,
La Trobe University,
Bundoora, Victoria 3083, Australia

and should retain the original typescript of their papers, as material submitted to the BULLETIN will usually not be returned. Authors should note that each paper must include an abstract of not more than 200 words.

Details of editorial policy are given on the inside back cover.

Abstracts of PhD Theses

The BULLETIN endeavours to publish abstracts of all accepted Australasian PhD theses in mathematics. One restriction, however, is that the abstract must be received by the Editor within 3 months of the degree being approved.
