WEED TECHNOLOGY

Published six times a year by the Weed Science Society of America

Jason K. Norsworthy, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Technology* include all aspects of weed management in agricultural, horticultural, ornamental, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; weed resistance to herbicides; herbicide resistant crops; biological weed control agents; new weed management techniques; impacts of weed competition with crops; vegetation management with plant growth regulators; weed surveys; weed-related grower surveys; education; and extension. Symposia papers and reviews are accepted. Consult the editor for additional information.

Associate Editors (Assignment Year)

Jason Bond, *Stoneville, MS* (2010)

Kevin Bradley, *Columbia, MO* (2012)

Barry Brecke, *Jay, FL* (2013)

Peter Dittmar, *Gainesville, FL* (2016)

Steve Fennimore, *Salinas, CA* (2004)

Aaron Hager, *Urbana, IL* (2012)

Brad Hanson, *Davis, CA* (2013)

Prashant Jha, *Ames, IA* (2016)

Amit Jhala, *Lincoln, NE* (2018)

David Johnson, *Des Moines, IA* (2019)

William Johnson, *West Lafayette, IN* (2007)

Andrew Kniss, *Laramie, WY* (2016)

Drew Lyon, *Pullman, WA* (2018)

Patrick McCullough, *Griffin, GA* (2016)

Scott McElroy, *Auburn, AL* (2012)

Robert Nurse, *Guelph, ON* (2016)

Darren Robinson, *Ridgetown, ON* (2008)

Larry Steckel, *Jackson, TN* (2007)

Daniel Stephenson, *Alexandria, LA* (2013)

Mark VanGessel, *Georgetown, DE* (2013)

Michael Walsh, *Crawley, Australia* (2016)

Eric Webster, *Baton Rouge, LA* (2018)

Cammy Willett, *Fayetteville, AR* (2017)

Tracy Candelaria, *Managing Editor*

Officers of the Weed Science Society of America

<http://wssa.net/society/bod/>

Weed Technology (ISSN 0890-037X) is published by the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234. It is published bimonthly, one volume per year, six issues per year beginning in February.

Membership includes online access to *Weed Technology*, *Weed Science*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Technology* subscription page at <https://www.cambridge.org/core/journals/weed-technology/subscribe>; Email: subscriptions_newyork@cambridge.org in USA, journals@cambridge.org outside USA.

Weed Technology publishes six times a year in February, April, June, August, October, and December. Annual institutional electronic subscription rates: US \$388.00; UK £270.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/wt>). Authors are asked to pay \$85 for the first page and \$65 per page thereafter as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Technology* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique propagative materials they might possess with other workers in that area who request such materials for the purpose of scientific research.

Cover

The duration of weediness in soybean is a function of the effectiveness and length of residual of the preemergence herbicide applied to the crop. The photo showcases the duration of weediness or lack thereof with an effective herbicide at planting. Photo credit: Dr. Stevan Knezevic.

WEED TECHNOLOGY

VOLUME 33

MAY–JUNE 2019

NUMBER 3

• RESEARCH ARTICLES

- Cadillo (*Urena lobata*) control with POST herbicides
José Luiz C. S. Dias, Guilherme Esteves Duarte, Wendy Linares Colombo and Brent A. Sellers 387
- Critical time for weed removal in glyphosateresistant soybean as influenced by preemergence herbicides
Stevan Z. Knezevic, Pavle Pavlovic, O. Adewale Osipitan, Ethann R. Barnes, Clint Beiermann, Maxwel C. Oliveira, Nevin Lawrence, Jon E. Scott and Amit Jhala 393
- Characterization of a waterhemp (*Amaranthus tuberculatus*) population from Illinois resistant to herbicides from five site-of-action groups
Cody M. Evans, Seth A. Strom, Dean E. Riechers, Adam S. Davis, Patrick J. Tranel and Aaron G. Hager 400
- Annual weed management in isoxaflutoleresistant soybean using a two-pass weed control strategy
Andrea Smith, Nader Soltani, Allan J. Kaastra, David C. Hooker, Darren E. Robinson and Peter H. Sikkema 411
- Overlay of residual herbicides in rice for improved weed management
Matthew J. Osterholt, Eric P. Webster, David C. Blouin and Benjamin M. McKnight 426
- Sugarbeet tolerance when dimethenamid-P follows soil-applied ethofumesate and S-metolachlor
Thomas J. Peters, Andrew B. Lueck and Aaron L. Carlson 431
- Efficacy of fall-applied residual herbicides on weedy rice control in rice (*Oryza sativa* L.)
Matthew B. Bertucci, Michael Fogleman and Jason K. Norsworthy 441
- Influence of application timing and herbicide rate on the efficacy of tolpyralate plus atrazine
Brendan A. Metzger, Nader Soltani, Alan J. Raeder, David C. Hooker, Darren E. Robinson and Peter H. Sikkema 448

• EDUCATION/EXTENSION

- Weed management practices in Argentina crops
Julio Alejandro Scursoni, Alejandra Carolina Duarte Vera, Fernando Hugo Oreja, Betina Claudia Kruk and Elba Beatriz de la Fuente 459

• RESEARCH ARTICLES

- A linuron-free weed management strategy for carrots
Tessa de Boer, Peter Smith, Kevin Chandler, Robert Nurse, Kristen Obeid and Clarence Swanton 464
- Tolerance of southern highbush and rabbiteye blueberry cultivars to saflufenacil
Ryan B. Aldridge, Katherine M. Jennings, Sushila Chaudhari, David W. Monks, Wesley J. Everman and Lucky K. Mehra 475
- Soybean and common ragweed (*Ambrosia artemisiifolia*) growth in monoculture and mixture
Ethann R. Barnes, Amit J. Jhala, Stevan Z. Knezevic, Peter H. Sikkema and John L. Lindquist 481
- Carrot weed management programs without linuron herbicide
Jed B. Colquhoun, Richard A. Rittmeyer and Daniel J. Heider 490
- Utility of glufosinate in postemergence row middle weed control in Florida plasticulture production
Shaun M. Sharpe and Nathan S. Boyd 495
- Strawberry, black medic (*Medicago lupulina*), and Carolina geranium (*Geranium carolinianum*) growth under light-limiting conditions
Shaun M. Sharpe, Jialin Yu and Nathan S. Boyd 503
- Tolerance of flax (*Linum usitatissimum*) to fluthiacet-methyl, pyroxasulfone, and topramezone
Moria E. Kurtenbach, Eric N. Johnson, Robert H. Gulden and Christian J. Willenborg 509
- Spatiotemporal monitoring of hydrilla [*Hydrilla verticillata* (L. f.) Royle] to aid management actions
Abhishek Kumar, Christopher Cooper, Caren M. Remillard, Shuvankar Ghosh, Austin Haney, Frank Braun, Zachary Conner, Benjamin Page, Kenneth Boyd, Susan Wilde and Deepak R. Mishra 518
- Vegetable soybean tolerance to flumioxazin-based treatments for waterhemp control is similar to grain-type soybean
Martin M. Williams II, James L. Moody and Nicholas E. Hausman 530
- Common carpetgrass (*Axonopus fissifolius*) control with POST herbicides
Gerald Henry, Christopher Johnston, Jared Hoyle, Chase Straw and Kevin Tucker 535
