Contents Volume 24 Number 2 2007

No Way Back: Maximizing Survival Time Below the Schwarzschild Event Horizon

Geraint F. Lewis and Juliana Kwan

46–52

Observation Scheduling for a Network of Small-Aperture Telescopes

A. R. Duncan

53–60

Orbital period modulation in SW Cygni

D. Manzoori

61–68

H α emission from the Magellanic Bridge

E. Muller, Q. A. Parker

69–76

Formation of stellar galactic nuclei through dissipative gas dynamics

K. Bekki

77–94

Expanding space: the root of all evil?

M. J. Francis, L. A. Barnes, J. B. James, G. F. Lewis

95–102
