WHOLE-TIME COURSES FOR POSTGRADUATE STUDENTS

August 10th-November 13th, 1964.

Basic Sciences Class for Part I D.L.O. students.

This consists of approximately 50 lecture/demonstrations on the anatomy of the head, neck, thorax and brain; 20 lectures covering the physiological aspects; 6 on applied pharmacology; and 8 on histological and pathological and bacteriological subjects. Facilities are also available for dissection of the relevant parts, and this occupies about 120 hours.

November 11th-24th, 1964.

Practical Revision Class for Part II D.L.O. students.

This is intended for those students who are well advanced in preparation for the examination and need only the opportunity for a final review. The class includes demonstrations of selected clinical cases and viva voce examinations.

October 12th-24th, 1964.

Advanced Revision Course for students taking higher surgical examinations.

This is limited to senior students who are about to take the Final examination. In addition to a series of lecture/discussions at the appropriate level in the Specialty and in related branches of general surgery, there are a number of clinical and viva voce sessions and arrangements for the setting and correction of test papers.

SECOND BRITISH ACADEMIC CONFERENCE IN OTOLARYNGOLOGY 1967

It has been decided by the General Committee that this will be held in Oxford early in July, 1967.

Further information will appear in this Journal from time to time in the future.

General Notes

EXTRAORDINARY CONGRESS OF THE INTERNATIONAL SOCIETY OF AUDIOLOGY IN KYOTO

Thursday, October 21st, 1965.

President of the Congress: Mitsuharu Goto, M.D.

Executive Secretary: Shinsaku Horiguchi, M.D.

Congress Secretary: Masanori Morimoto, M.D.

Secretariat: Department of Otolaryngology, Faculty of Medicine,
Kyoto University, Shogoin Sakyo-Ku, Japan.

The Second Extraordinary Congress of the International Society of Audiology will be held in Kyoto, Japan, October 21st, 1965, under the direction of the President, Mitsuharu Goto, M.D.

The presentation should be spoken in 20 minutes and only in English. The abstract within 800 words should be received in Kyoto by the end of April, 1965, and it can be written in the language which you prefer.

Correspondence is to be addressed to: Masanori Morimoto, M.D., Congress Secretary, Department of Otolaryngology, Faculty of Medicine, Kyoto University, Shogoin Sakyo-Ku, Kyoto, Japan.

VIII INTERNATIONAL CONGRESS OF OTO-RHINO-LARYNGOLOGY, TOKYO, JAPAN

The Eighth International Congress of Oto-Rhino-Laryngology will take place in Tokyo, Japan, October 24th-30th, 1965.

President: Shigekazu Sato, M.D.

Secretary General: Jo Ono, M.D.

Correspondence is to be addressed to: Kojimachi, P.O. Box 40, Tokyo, Japan.
Further information will be announced in the near future.

FACTS ABOUT DE QUIROS TRANSLATION

Copies of "Accelerated Speech Audiometry, An Examination of Test Results" by J. B. de Quiros, in an English translation, are now available from the Beltone Institute for Hearing Research.

The 48-page de Quiros work was originally published in Spanish in *Revista Fonoaudiologica* in 1961, and was not available in English until now. Dr. de Quiros is Professor of Speech Pathology and Audiology at Universidad del Litoral, Buenos Aires, Argentina.

Juergen Tonndorf, M.D., editor of the *Translations*, explains that only the second part of Dr. de Quiros' original article was translated. This part reports on Dr. de Quiros' experiences with a number of clinical patients on whom he used a variety of modern hearing tests for speech, mainly accelerated speech.

General Notes

These tests, most of which were developed in Italy by Dr. H. Bocca and his group, have so far found little application in the United States. It appears from Dr. de Quiros' article and others by Dr. Bocca and his co-workers that this type of hearing test has a place in the differential diagnosis of disorders in the higher auditory tracts and centres.

The Beltone Institute, financed by Beltone Electronics Corporation, is an independent, not-for-profit trust organization which supports research in hearing and other related fields. Trustees are: S. F. Posen, chairman; Raymond T. Carhart, Ph.D., Joseph E. Hind, Jr., Ph.D.; John R. Lindsay, M.D.; and S. Richard Silverman, Ph.D.

The de Quiros *Translation* is the seventeenth in a series. The sixteenth was "New Aspects on the Biology and Pathology of the Inner Ear" by Dr. K. H. Vosteen, translated from the German and published in July, 1963. The new *Translation* and earlier works may be obtained by writing to the Beltone Institute for Hearing Research, 4201 W. Victoria Street, Chicago.

THE ROYAL NATIONAL THROAT, NOSE AND EAR HOSPITAL

GRAY'S INN ROAD, LONDON, W.C.1

is holding a Conference for Consultant Anaesthetists on "Anaesthesia for Otorhinolaryngology" on Thursday, December 3rd, 1964. The meeting will take the form of short papers and discussions. For further particulars apply to Dr. H. A. Condon at above address.
