

# Technische Hogeschool Delft

The Department of Aerospace Engineering of the Delft University of Technology, The Netherlands, invites applications for the position of

## FULL PROFESSOR IN AIRCRAFT STRUCTURES

with emphasis on the layout and design aspects of aerospace structures. A scientific staff, formerly under the supervision of the late Professor Van Beek, is engaged in this field of activities.

Practical design experience at a supervisory level, a good scientific background and familiarity with modern analytical and numerical methods related to the design of aircraft and spacecraft structures are essential.

The applicant will be responsible for lectures dealing with air-load calculations, applied structural analysis and design. He will also supervise the thesis work of students specialising in structural design during the last two years before graduation. In addition it is desirable that he be able to provide leadership by the introduction of one or more of the following activities: computer aided design, structural optimisation and design with composite materials.

A structural laboratory is available for research by staff and students; also the university computing centre is at the disposal of the department.

The salary depends on age and experience, with a limit amounting to Dfl. 134.000, per annum.

Aerospace engineers or scientists, meeting the above-mentioned requirements, are invited to apply for this position by sending a detailed Curriculum Vitae, a list of publications, lectures, etc. and the names and addresses of three persons, who can give references, to:

The Dean of the Department of Aerospace Engineering,  
ir. J. A. van Ghesel Grothe,  
Delft University of Technology,  
Kluyverweg 1,  
2629 HS Delft, The Netherlands.

Requests for more detailed information concerning the above should also be sent to this address.

Letters of recommendation from others, concerning persons considered to be suitable for this position, will also be appreciated.

## BY JUPITER

The Life of Sir Roy Fedden  
by Bill Gunston

Sir Roy Fedden was . . . "one of the greatest intuitive engineers in history . . ." in the 1930s the aero engines he designed powered Britain's national airline, more than half the RAF, and about half the other airlines and air forces of the world. He was, at that time . . . "the highest paid engineer in Britain" . . . although he never formally qualified as an engineer. *By Jupiter* tells his story and that of the Jupiter engine, his first great success.

*By Jupiter* is being offered to members of the RAeS and IMechE at the privilege price of £2.50 which barely covers the cost of printing. The book is available to those outside the Society at £5.00.

Orders for *By Jupiter* are now being accepted and may be sent to the Society on the form printed below.

### ORDER FORM — BY JUPITER

To: The Secretary,  
Royal Aeronautical Society, 4 Hamilton Place,  
London W1V 0QB.

Please send me . . . . . copy (copies\*) of *By Jupiter*  
at the privilege member's price of £2.50 (at the full price  
of £5.00\*) for which I enclose a cheque for £ . . . . .

Signed . . . . .

Grade of Membership . . . . .

Name . . . . .

Address to which your *By Jupiter* should be sent:  
. . . . .  
. . . . .  
. . . . .

\*Please delete words which are inapplicable.

# FURNITURE CARPETS

## Not surprising, seeing we own the world's largest fleet of them.

Every one of our flights to the USA is on a jumbo.

And with good reason.

Because when you're travelling long distances you've got to be able to relax in a spacious, comfortable aircraft. And with Pan Am's people to look after you, your journey will pass as quickly and as comfortably as possible.

Of course there are plenty of other reasons for flying Pan Am. And all of them equally valid.

Two great movies. Current or pre-release. Eight stereo channels. (A small charge has to be made for these to comply with international regulations.)

A superb choice of main courses in Economy. And if you're travelling First

Class, we've an exclusive upstairs Dining Room that puts most eating houses to shame.

If you're planning a trip to the States, get your nearest Travel Agent to book you on a Pan Am 747.

You'll find the world's most experienced airline is also the world's most hospitable.

**Pan Am's People. Their experience makes the difference.**

# DECCA AVIONICS

Decca Aviation Electronics – the choice of an ever growing number of users.

Decca Doppler Navigation Systems have been installed in over 80 different types of rotary and fixed wing aircraft and has been supplied to 40 different countries. The TANS Computer/Display has also been ordered in quantity for a number of major aircraft programmes.

The Decca Navigator is used by the Royal Air Force, British Airways and in a wide variety of fixed and rotary wing civil and military aircraft

throughout the world. Decca Loran is in service with the RAF, the USAF and the US Coast Guard. The MONA R-Nav system, certified by the CAA and FAA in the Lockheed TriStar, is now in widespread airline service.

Decca manufactures airborne VHF Nav/Comm and DME equipment, ordered by the MOD. The Decca range of equipment includes a CAA approved NDB, ILS, the type DVB 50 Doppler/VOR Beacon, and a portable TACAN. Decca is also a major supplier of electronic warfare systems, ASMI and communications equipment.
