

ERRATUM

## First Results of the Swiss National Surgical Site Infection Surveillance Program: Who Seeks Shall Find – ERRATUM

---

In the article by Troillet, et al.<sup>1</sup>, a typographical error introduced during the production process resulted in the last sentence of the methods section incorrectly stating that “All tests were 1-tailed.” The correct sentence should read “All tests were 2-tailed.” The publisher apologizes to the authors and readers for this error.
