

## SUBSCRIPTION RATES

Subscription rates (post free) for Volume 33 (2001) of *Advances in Applied Probability* are as follows:

US\$238.50; \$A376.35; £145.50 for libraries and institutions;  
US \$79.50; \$A125.45; £48.50 for individuals belonging to a recognised scientific society.

Please send all enquiries to: Applied Probability, School of Mathematics and Statistics, University of Sheffield, Sheffield S3 7RH, UK.

We can provide back issue prices on application. Cheques, money orders, etc. should be made out to APPLIED PROBABILITY. Payment is accepted in US, UK or Australian currency or by VISA or Mastercard (phone: +44 114 222 3922; fax: +44 114 272 9782).

## NOTES FOR CONTRIBUTORS

Contributors in *Advances* may be of six kinds:

(1) *review papers*; (2) *longer research papers* in applied probability, which may include expository material; (3) *expository papers* on branches of mathematics of interests to probabilists; (4) *papers outlining areas in the biological, physical, social and technological sciences* in which probability models can usefully be developed; (5) *papers in applied probability* presented at conferences which do not publish their proceedings; (6) *letters to the editor* on any appropriate topic in applied probability. In addition, the SGSA section includes contributions relating to stochastic geometry and statistical applications. Letters relating specifically to papers which have appeared in the *Journal of Applied Probability* will continue to be published in that journal.

*Shorter research papers* and *short communications* are published in the *Journal of Applied Probability*. The editors may publish accepted papers in either journal, however, according to the space available, in order to meet publication deadlines.

### Submission of papers

Papers submitted to the Applied Probability journals are considered on the understanding that they have not been published previously and are not under consideration by another publication. Papers will not be reprinted without the written permission of the Trust. It is the policy not to accept for publication papers which cannot appear in print within 15 months of the date of receipt of the final version. Fifty reprints of each paper will be provided free; additional reprints are available at cost.

Papers should be written in English or French; papers in other languages may be accepted by the editors, but will appear (subject to the author's agreement) in English or French translation. Please supply *three* double-spaced hard copies, at least one of which should be printed on one side of the paper only. The paper should include: (1) a short abstract of approximately 4–10 lines giving a non-mathematical description of the subject matter and results; (2) list of keywords detailing the contents for the purposes of computerised information retrieval; (3) primary and secondary classifications according to the 2000 Mathematics Subject Classification.

Authors are advised to consult *The Author's Guide to the Applied Probability Journals* when preparing papers for submission. A copy of this guide may be obtained free of charge from the Applied Probability Office. An updated version of the guide, with LATEX style files, can be obtained in electronic form on <http://www.appliedprobability.org> or on PC-compatible disk from the Applied Probability Office.

For efficiency in processing, authors are requested to send all submissions to the Applied Probability Office in Sheffield, rather than to individual editors. The address for all submissions is:

**Executive Editor, Applied Probability, School of Mathematics and Statistics,  
University of Sheffield, Sheffield S3 7RH, UK.**

## COPYRIGHT

The copyright of all published papers is vested in the Trust. When a paper is accepted for publication, the Trust asks the author(s) to assign copyright to the Trust by signing a form in which the terms of copyright are listed. Failure to do this promptly may delay or prevent publication.

Authorisation to photocopy items for internal or personal use, or for the internal or personal use of specific clients, is granted by the Applied Probability Trust for libraries and other users registered with the Copyright Clearance Centre (CCC) Transactional Reporting Service, provided that the base fee of \$00.70 per copy, plus 0.20 per page is paid directly to CCC, 222 Rosewood Drive, Danvers, MA 01923, USA. 0001-8678/01 \$00.70 + 020.

*Stochastic Geometry and Statistical Applications*

- 293 FRANÇOIS BACCELLI AND BARTŁOMIEJ BŁASZCZYSZYN. On a coverage process ranging from the Boolean model to the Poisson–Voronoi tessellation with applications to wireless communications
- 324 HUILING LE. Locating Fréchet means with application to shape spaces
- 339 M. N. M. VAN LIESHOUT AND E. W. VAN ZWET. Exact sampling from conditional Boolean models with applications to maximum likelihood inference
- 354 RICHARD A. VITALE. Intrinsic volumes and Gaussian processes

*General Applied Probability*

- 365 R. T. DUNN AND K. D. GLAZEBROOK. The performance of index-based policies for bandit problems with stochastic machine availability
- 391 DIDIER PIAU. Processus de branchement en champ moyen et réaction PCR
- 404 HUI WANG. Some control problems with random intervention times
- 423 LAURA M. MORATO AND PAOLA SIRI. A stochastic algorithm to compute optimal probabilities in the chaos game
- 437 JÓZSEF BUKSZÁR. Upper bounds for the probability of a union by multitrees
- 453 E. DI NARDO, A. G. NOBILE, E. PIROZZI AND L. M. RICCIARDI. A computational approach to first-passage-time problems for Gauss–Markov processes
- 483 PIETER ALLAART AND MICHAEL MONTICINO. Optimal stopping rules for directionally reinforced processes
- 505 JAMES LEDOUX AND LAURENT TRUFFET. Markovian bounds on functions of finite Markov chains
- 520 O. J. BOXMA AND I. A. KURKOVA. The  $M/G/1$  queue with two service speeds
