

## CONTENTS OF VOLUME XX

JAMES P. ABBOTT and RICHARD P. BRENT: A note on continuation methods for the solution of non-linear equations	157
JAMES P. ABBOTT and RICHARD P. BRENT: Erratum: Fast local convergence with single and multistep methods for non-linear equations	254
N. ANDERSON and A. M. ARTHURS: Maximum and minimum principles for capillary surface problems with prescribed contact angle	285
A. M. ARTHURS: <i>See</i> N. ANDERSON	285
N. G. BARTON: The initial dispersion of soluble matter in three-dimensional flow	265
J. M. BLATT and J. D. GRAY: An elementary derivation of Pontryagin's maximum principle of optimal control theory	142
RICHARD P. BRENT: <i>See</i> JAMES P. ABBOTT	157
RICHARD P. BRENT: <i>See</i> JAMES P. ABBOTT	254
W. BRISLEY: Two related estimated problems	202
PETER W. BUCHEN: The elastodynamic Green's tensor for the 2D half space	385
V. T. BUCHWALD: The diffraction of elastic waves by small cylindrical cavities	495
A. CANT and C. A. HURST: The algebraic structure of relativistic wave equations	446
P. CHADWICK, C. F. M. CREASY and V. G. HART: The deformation of rubber cylinders and tubes by rotation	62
W. L. CHAN and S. K. NG: Variational control problems for linear differential systems	434
D. L. CLEMENTS: <i>See</i> E. R. LOVE	381
I. L. COLLINGS and R. GRIMSHAW: Supercritical flow of an ideal fluid over a spillway	211
J. V. CORBETT and C. A. HURST: Are wave functions uniquely determined by their position and momentum distribution?	182
C. F. M. CREASY: <i>See</i> P. CHADWICK	62
PHIL DIAMOND: Discrete Liapunov functions with $\Delta^2 V > 0$	280
M. E. FISHER and P. E. KLOEDEN: Asymptotic behaviour of a class of discontinuous difference equations	370
R. GRIMSHAW: The stability of continental shelf waves I. Side band instability and long wave resonance	13
R. GRIMSHAW: <i>See</i> I. L. COLLINGS	211
M. D. GOULD: On tensor identities and characteristic identities for semi-simple lie algebras	290
M. D. GOULD: The characteristic identities and reduced matrix elements of the unitary and orthogonal groups	401
J. D. GRAY: <i>See</i> J. M. BLATT	142
V. G. HART: <i>See</i> P. CHADWICK	62
M. HAYES: Energy flux for plane waves in linear conservative systems	106
JAMES M. HILL: Generalized shear deformations for isotropic incompressible hyperelastic materials	129
D. F. HINES and C. J. THOMSON: A one-dimensional random walk with repulsion	375
C. A. HURST: <i>See</i> J. V. CORBETT	182
C. A. HURST: <i>See</i> A. CANT	446
T. R. JEFFERSON: <i>See</i> C. H. SCOTT	257
T. R. JEFFERSON and C. H. SCOTT: On finding a point in the relative interior of a polyhedral set and degeneracy in geometric programming	487

KRISORN JITTORNTRUM and M. R. OSBORNE: Trajectory analysis and extrapolation in barrier function methods	352
P. E. KLOEDEN and R. A. PEARSON: The numerical solution of stochastic differential equations	8
P. E. KLOEDEN: <i>See</i> M. E. FISHER	370
JAMES K. KNOWLES: A note on anti-plane shear for compressible materials in finite elastostatics	1
P. G. L. LEACH: On a direct method for the determination of an exact invariant for the time-dependent harmonic oscillator	97
E. R. LOVE and D. L. CLEMENTS: Erratum: A transformation of Cooke's treatment of some triple integral equations	381
C. MACASKILL and E. O. TUCK: Evaluation of the acoustic impedence of a screen	46
J. M. MURRAY and K. L. TEO: On a computational algorithm for a class of optimal control problems involving discrete time delayed arguments	315
MITSURU NAKAI and LEO SARIO: Green's function of the clamped punctured disc	175
S. K. NG: <i>See</i> W. L. CHAN	434
E. S. NOUSSAIR: On the existence of piecewise continuous optimal controls	31
M. R. OSBORNE: <i>See</i> KRISORN JITTORNTRUM	352
M. D. PATEL: A class of axially symmetric stationary exact solutions of Einstein's vacuum field equations	344
R. A. PEARSON: <i>See</i> P. E. KLOEDEN	8
J. R. PHILIP: Inverse power law potentials about polygonal prisms and in polygonal cavities	241
J. R. PHILIP: Corrigendum: Inverse power law potentials about polygonal prisms and in polygonal cavities	508
JOHN R. RANKIN: <i>See</i> PETER SZEKERES	114
LEO SARIO: <i>See</i> MITSURU NAKAI	175
C. H. SCOTT and T. R. JEFFERSON: A duality approach to discrete time control theory	257
C. H. SCOTT: <i>See</i> T. R. JEFFERSON	487
J. J. SHEPHERD: A nonlinear singular perturbation problem on a semi-infinite interval	226
P. K. SMRZ: Translations as gauge transformations	38
PETER SZEKERES and JOHN R. RANKIN: Homogeneous Newtonian cosmologies and their perturbations	114
K. L. TEO: <i>See</i> J. M. MURRAY	315
C. J. THOMSON: <i>See</i> D. F. HINES	375
E. O. TUCK: <i>See</i> C. MACASKILL	46
G. M. WEBB: A monoenergetic-source solution of the steady-state cosmic-ray equations of transport	165
