**Positions Available**

**ASSOCIATE DIRECTOR for  
CHEMISTRY and MATERIALS SCIENCE**

**Lawrence Livermore National Laboratory (LLNL)**, one of the nations leading research and development organizations has an opening for an Associate Director (AD) for Chemistry and Materials Science Directorate. This position is part of the Laboratory's senior management team and reports to the Director. The AD will lead approximately 400 scientists, technicians, and administrative staff providing chemistry and materials science support in partnership with the very broad research and development activities of the Laboratory. The successful candidate must have a vision of the long-term needs for basic and applied research in chemistry and materials science that will ensure a high quality technical staff and state-of-the-art support for the Laboratory's mission-oriented programs. These include national security, non-proliferation, arms control, and treaty verification, energy, laser programs, environmental and ecological sciences, and biotechnology. The AD will also be expected to develop and implement strategies for obtaining external funding and for developing collaborations and partnerships with industry, universities, and other laboratories to enhance the research and development activities of the Directorate.

Requirements include Ph.D. or equivalent experience in Chemistry, Materials Science, or related disciplines, evidence of creativity, entrepreneurial skills and innova-

tive thinking, and experience and demonstrated technical achievement in chemistry or materials sciences. Qualified candidates must also have demonstrated successful leadership in a senior level position in a high technology environment. Knowledge of the Department of Energy and other federal programs, participation on national and international research and advisory boards, and experience managing in a matrix management environment is desired.

LLNL offers a challenging work environment and a competitive salary/benefits package. Qualified individuals are invited to send their resumes no later than May 1, 1996 to: **Ms. Mary Anne Holman, Recruiting and Employment Division, Dept. AJMV416MH, Lawrence Livermore National Laboratory, P.O. Box 5510, Livermore, CA 94551-5510.** U.S. Citizenship and the ability to obtain a Department of Energy "Q" clearance are required. We are proud to be an Equal Opportunity Employer. M/F/D/V.
