CONTENTS OF VOLUME 74

ALBERUCCI, L. and FACCHINI, A. The modal μ-calculus hierarchy over restricted classes of transition systems 1367

AMBOS-SPIES, KLAUS, DING, DECHENG, WANG, WEI, and YU, LIANG. Bounding non-GL_2 and R.E.A. 989

ANDERSON, BERNARD A. Automorphisms of the truth-table degrees are fixed on a cone 679

AVIGAD, JEREMY and TOWSNER, HENRY. Functional interpretation and inductive definitions 1100

AWODEY, S., GAMBINO, N., LUMSDAINE, P. L., and WARREN, M. A. Lawvere–Tierney sheaves in Algebraic Set Theory 861

BADAEV, SERIKZHAN A. and LEMPP, STEFFEN. A decomposition of the Rogers semilattice of a family of d.c.e. sets 618

BALDWIN, JOHN T., KOLESNIKOV, ALEXEI, and SHELAH, SAHARON. The amalgamation spectrum 914

BECHER, VERÓNICA and GRIGORIEFF, SERGE. From index sets to randomness in $\emptyset^n$: random reals and possibly infinite computations part II 124

BENEDIKT, MICHAEL and SEGOUFIN, LUC. Towards a characterization of order-invariant queries over tame graphs 168

BERARDUCCI, ALESSANDRO. Cohomology of groups in o-minimal structures: acyclicity of the infinitesimal subgroup 891

BINNS, STEPHEN and KJOS-HANSSEN, BJØRN. Finding paths through narrow and wide trees 349

BOWLER, NATHAN and FORSTER, THOMAS. Normal subgroups of infinite symmetric groups, with an application to stratified set theory 17

BRENDLE, JÖRG and HRUŠÁK, MICHAEL. Countable Fréchet Boolean groups: An independence result 1061

BRISEID, EYVIND MARTOL. Logical aspects of rates of convergence in metric spaces 1401

BROOKE-TAYLOR, ANDREW D. Large cardinals and definable well-orders on the universe 641

CARLUCCI, LORENZO, CASE, JOHN, and JAIN, SANJAY. Learning correction grammars 489

CASE, JOHN. See CARLUCCI, LORENZO.

CENZER, DOUGLAS, LAFORTE, GEOFFREY, and REMMEL, JEFFREY. Equivalence structures and isomorphisms in the difference hierarchy 535

CHISHOLM, JOHN, FOKINA, EKATERINA B., GONCHAROV, SERGEY S., HARIZANOV, VALENTINA S., KNIGHT, JULIA F., and QUINN, SARA. Intrinsic bounds on complexity and definability at limit levels 1047

CHOLAK, PETER A., JOCKUSCH, JR., CARL G., and SLAMAN, THEODORE A. Corrigendum to: "On the strength of Ramsey's Theorem for pairs" 1438

CHUBB, JENNIFER, HIRST, JEFFRY L., and MCNICHOLL, TIMOTHY H. Reverse mathematics, computability, and partitions of trees 201

CLAVERIE, BENJAMIN and SCHINDLER, RALF. Increasing u_2 by a stationary set preserving forcing 187

CORNAROS, CH. See WOODS, ALAN R.

Articles being submitted for publication in the JOURNAL should be sent to one (and only one) of the following editors: ***Toshiyasu Arai, Grad. Sch. of Sci. & Tech, Kobe Univ., Rokko-dai, Nada-ku, Kobe 657-8501, Japan*** (arai@kurt.scitec.kobe-u.ac.jp); or ***Alessandro Berarducci, Dipartimento di Matematica, Universita' di Pisa, Largo Bruno Pontecorvo 5, 56127 Pisa, Italy*** (berardu@dm.unipi.it); or ***Elisabeth Bouscaren, Université Paris Sud – CNRS UMR 8628, Département de Mathématiques, Bat. 425, 91405 Orsay Cedex, France*** (elisabeth.bouscaren@math.u-psud.fr); or ***Peter Cholak, Dept. of Math., 255 Hurley, Univ. of Notre Dame, Notre Dame, IN 46556, USA*** (Peter.Cholak.1@nd.edu); or ***Erich Grädel, Mathematische Grundlagen der Informatik, RWTH Aachen, D-52056 Aachen, Germany*** (graedel@logic.rwth-aachen.de); or ***Justin Moore, Department of Mathematics, 310 Malott Hall, Cornell University, Ithaca, NY 14853-4201, USA*** (justin@math.cornell.edu); or ***Ralf Schindler, Institut für Mathematische Logik und Grundlagenforschung, Universität Münster, Einsteinstr. 62, D-48149 Münster, Germany*** (rds@math.uni-muenster.de); or ***Frank Stephan, Department of Mathematics, National University of Singapore, 2 Science Drive 2, Singapore 117543, Republic of Singapore*** (fstephan@comp.nus.edu.sg); or ***Alasdair Urquhart, Department of Philosophy, University of Toronto, 215 Huron Street, Toronto, Ontario, Canada M5S 1A1*** (urquhart@cs.toronto.edu).

The editors prefer electronic submissions. The preferred formats for electronic submissions are PDF or postscript, but other formats, such as Word documents, will be accommodated as best as possible. The author should keep a complete copy of the submitted manuscript and the electronic files from which it was created. After the paper is accepted in its final form, an electronic copy will be appreciated and will advance the final publication date of the paper. It is preferred that papers be prepared in LaTeX or other variant of TeX, especially for manuscripts that include extensive symbolic or mathematical notation. The ASL LaTeX style files are available at http://www.aslonline.org, but their use is optional. Fifty offprints of each article are supplied at no charge; additional offprints may be purchased if desired.

Volumes 1 through 69 of the JOURNAL are available online in the JSTOR database.

Reviews of articles and books in logic which in the past were published in the JOURNAL have been moved to the BULLETIN OF SYMBOLIC LOGIC, beginning with the March 2000 issues.

Individual membership in the Association is open to anyone interested in its work. Annual dues for members are US$82 (US$41 for students). Dues include subscriptions to the current volumes of the JOURNAL, the BULLETIN, and the REVIEW. Institutional membership in the Association is available to any academic institution or department. Annual institutional dues are US$625 for 2009. Membership privileges include choices of current subscriptions, back volumes, and student memberships. A detailed description of institutional and corporate memberships is available from the Secretary-Treasurer.

Requests for information, applications for membership, orders for back volumes, business correspondence, and notices and announcements for publication in the BULLETIN should be sent to the Secretary-Treasurer of the Association, ***Charles Steinhorn, ASL, Box 742, Vassar College, 124 Raymond Avenue, Poughkeepsie, NY 12604, USA***. The electronic mail address of the Association's business office is asl@vassar.edu. The ASL Website is located at http://www.aslonline.org. Links from that site provide further information on the JOURNAL and on submitting papers for publication.

Notices of change of address, dues payments, and subscription orders to the JOURNAL and BULLETIN should be sent to: ***Association for Symbolic Logic, c/o American Mathematical Society, 201 Charles Street, Providence, RI 02904-2294, USA***. All orders must be accompanied by payment in US dollars; Visa, MasterCard, Discover and American Express charges are accepted. To receive a replacement copy of the JOURNAL, please report damaged, defective, or missing issues within nine months of the date of publication.

For subscriptions to the REVIEW, contact Cambridge Journals Customer Services at journals@cambridge.org.

All back volumes of the JOURNAL are available, and they can be purchased by individual members of the Association (for their personal use) or by institutional members at a 50% discount. Orders should be sent to the Secretary-Treasurer, from whom the current price list is available.

The paper used in this JOURNAL is acid-free and falls within the guidelines established to ensure permanence and durability.

This JOURNAL has been registered with the Copyright Clearance Center, Inc. The appearance of a code at the bottom of the first page of an article indicates the copyright owner's consent for copying beyond that permitted by Sections 107 or 108 of the US Copyright Law, provided that the per-copy fee stated in the code is paid directly to ***Copyright Clearance Center, Inc., 222 Rosewood Drive, Danvers, MA 01923, USA.*** This consent does not extend to copying for general distribution, for advertising or promotion purposes, for creating new collective works, or for resale. Specific written permission for such copying must be obtained from the Association.
