

GENERAL NOTES

CALIBRATION OF AUDIOMETERS

The Royal National Institute for the Deaf has instituted a service of audiometer calibration for the benefit of hospital boards, local authorities, and firms or private individuals concerned in the measurement of hearing losses. This service is the latest stage in the expansion of the facilities of the R.N.I.D. Technical Department, which already runs a testing service on hearing aids, group-hearing aids and other acoustic apparatus.

The new service, which has the full support of the British Association of Otolaryngologists, is the only service of its kind in England and Wales (one is operated for Scotland by the Western Regional Hospital Board in Glasgow), and it has become necessary owing to the increasing number of audiometers used for testing hearing in E.N.T. Departments of Hospitals, Audiology Clinics, etc., and in industrial organizations for measuring the effects on hearing of industrial noise. Audiometers which are not regularly or accurately calibrated can give false reading for the threshold of hearing or reading which are not comparable with those obtained on instruments at other Clinics, etc.

The R.N.I.D. calibration service, which is under the direction of Dr. T. S. Littler, the Hon. Scientific Adviser of the Institute, will ensure that the readings obtained after calibration are derived from a standard "base" in accordance with the recommendation of the British Standards Institution and will enable the actual sounds used in testing to be adjusted so as to correspond exactly with the settings on the dials.

Applications for the calibration of audiometers, either of individual instruments or on a contract basis for a number of audiometers, should be made to the Secretary, R.N.I.D., 105 Gower Street, London, W.C.1.

SIXTIETH FRENCH CONGRESS OF OTOLARYNGOLOGY

Sixtieth French Congress of Otolaryngology Meeting, October 7th to 10th, 1963. President: Mr. Ombredanne, M.D., 4 rue Logelbach, Paris. General Secretary: Mr. H. Guillon, M.D., 6 avenue Mac-Mahon, Paris.

XXI SCIENTIFIC MEETING OF THE ITALIAN SOCIETY OF ANGIOLOGY

The scientific meeting will be held in Padua on June 8th-9th, 1963, and will be organized by Professor M. Arslan, Director of the Otorinolaryngologic Clinic of the University of Padua. The meeting is devoted to the following themes: (1) "Angiological arguments of the organs of sense" (panel discussion); (2) "Otorhinolaryngological angiology" (symposium).

The office of the Secretary for the Meeting will be open until May 15th, 1963, at the Dermatologic Clinic of the University of Pisa.

General Notes

POSTGRADUATE MEDICAL INSTRUCTION, THE MOUNT SINAI HOSPITAL

An intensive postgraduate course in Rhinoplasty, Reconstructive Surgery of the Nasal Septum and Otoplasty will be given, January 12th to January 25th, 1963, by Dr. Irving B. Goldman and staff at the Mount Sinai Hospital, New York, in affiliation with Columbia University.

Candidates for the course should apply to the Registrar for Postgraduate Medical Instruction, The Mount Sinai Hospital, Fifth Avenue, and 100th Street, New York 29, N.Y.

INTERNATIONAL CONGRESS OF THE HUNGARIAN SOCIETY OF OTO-RHINO-LARYNGOLOGY

This Congress will be held in Budapest from September 19th to September 21st, 1963.

The main subjects to be discussed will be: Tumours of the Paranasal Sinuses; Occupational Ear Disease.

Will those who intend to participate write for further information to: Dr. George Revesz, General Secretary of the Hungarian Society of Otolaryngology, Budapest, 11. Keleti Karoly u. 15/a.

TWO COURSES IN RHINOLOGY TO BE PRESENTED AT LEIDEN UNIVERSITY, HOLLAND, IN JULY, 1963

Two courses in rhinology to be presented at the Leiden University, Holland, in July, 1963, are expected to draw participants from many countries of the world.

A "Boerhaave" course in rhinology will be held July 4th-6th, 1963, and will be followed by the fifth International Course in "Reconstructive Surgery of the Nasal Septum and External Pyramid", July 7th-19th, with the co-operation of the American Rhinologic Society.

Both will be held at the Academisch Ziekenhuis, Afd. Keel-neus-oorheelkunde under the direction of Prof. Dr. H. A. E. van Dishoeck of the University. Dr. Maurice H. Cottle, Professor of Otorhinolaryngology at the Chicago Medical School, will be the guest professor for the two-week course in nasal surgery. Many distinguished specialists from the United States, Europe, and other countries will join in the teaching programme.

Although the courses are a year away, the popularity of previous programmes suggests the need for early arrangements because there is a limit as to the number that can be accommodated.

For further information, write to Prof. Dr. H. A. E. van Dishoeck, Afd. Keel-neus-oorheelkunde, Academisch Ziekenhuis, Leiden, Holland, or to the American Rhinologic Society, 530 Hawthorne Place, Chicago 13, Illinois, U.S.A.

STRUT APPLYING INSTRUMENTS

by R. D. STRIDE

Vide: *Journal of Laryngology and Otology*, April, 1962

Strut applying Forceps

"Introduction of a prosthesis carried out with the aid of these forceps permit the exact placement of the prosthesis, without obscuring vision, owing to the small diameter of the shaft of the instrument, while the type of handles permits release of the strut without undue movement.

Strut engaging Probe

Used in conjunction with the strut applying forceps this instrument considerably simplifies the procedure of stapedectomy and vein graft.
