APPLIED PROBABILITY TRUST PRIZES 2002

Since early in the 1970s, the Applied Probability Trust (APT) has tried to encourage the study of probability and statistics by donating prizes to outstanding students at institutions throughout the world. This aspect of the APT's activities may not be well known to readers of the *Journal of Applied Probability* (JAP). From 2003, to keep readers better informed, a list of the prize-winning students will be published annually in the June issue of JAP. We offer our warmest congratulations to these prize winners, and hope they will seriously consider making their careers in the exciting fields of probability, statistics and their applications.
