

## Listing of the Technical Communications of the 26th ICLP

This is a listing of the *Invited Papers* and *Technical Communications* which were also presented at ICLP 2010. These papers constitute Volume 7 of the Leibniz International Proceedings in Informatics (LIPIcs) series, published on line through the Dagstuhl Research Online Publication Server (DROPS). In addition to these invited papers and technical communications the volume also includes the 15 papers presented at the ICLP Doctoral Symposium.

### Preface

Introduction to the Technical Communications of ICLP 2010

*Manuel Hermenegildo and Torsten Schaub*

### Invited Papers

Datalog for Enterprise Software: From Industrial Applications to Research (Invited Talk)

*Molham Aref*

A Logical Paradigm for Systems Biology (Invited Talk)

*François Fages*

### Technical Communications

Runtime Addition of Integrity Constraints in Abductive Logic Programs

*Marco Alberti, Marco Gavanelli, Evelina Lamma*

Learning Domain-Specific Heuristics for Answer Set Solvers

*Marcello Balduccini*

HEX Programs with Action Atoms

*Selen Basol, Ozan Erdem, Michael Fink, Giovambattista Ianni*

Communicating Answer Set Programs

*Kim Bauters, Jeroen Janssen, Steven Schockaert, Dirk Vermeir, Martine De Cock*

Implementation Alternatives for Bottom-Up Evaluation

*Stefan Brass*

Inductive Logic Programming as Abductive Search

*Domenico Corapi, Alessandra Russo, Emil Lupu*

Efficient Solving of Time-Dependent Answer Set Programs

*Timur Fayruzov, Jeroen Janssen, Martine De Cock, Chris Cornelis,*

*Dirk Vermeir*

Improving the Efficiency of Gibbs Sampling for Probabilistic Logical Models by Means of Program Specialization

*Daan Fierens*

Focused Proof Search for Linear Logic in the Calculus of Structures

*Nicolas Guenot*

Sampler Programs: The Stable Model Semantics Abstract Constraint Programs Revisited

*Tomi Janhunen*

A Framework for Verification and Debugging of Resource Usage Properties

*Pedro Lopez-Garcia, Luthfi Darmawan, Francisco Bueno*

Contractible Approximations of Soft Global Constraints

*Michael Maher*

Dedicated Tabling for a Probabilistic Setting

*Theofrastos Mantadelis, Gerda Janssens*

Tight Semantics for Logic Programs

*Luis Moniz Pereira, Alexandre Miguel Pinto*

From Relational Specifications to Logic Programs

*Joseph Near*

Methods and Methodologies for Developing Answer-Set Programs—Project Description

*Johannes Oetsch, Joerg Puehrer, Hans Tompits*

Tabling and Answer Subsumption for Reasoning on Logic Programs with Annotated Disjunctions

*Fabrizio Riguzzi, Terrance Swift*

Subsumer: A Prolog Theta-Subsumption Engine

*Jose Santos, Stephen Muggleton*

Using Generalized Annotated Programs to Solve Social Network Optimization Problems

*Paulo Shakarian, V.S. Subrahmanian, Maria Luisa Sapino*

Abductive Inference in Probabilistic Logic Programs

*Gerardo Simari, V.S. Subrahmanian*

Circumscription and Projection as Primitives of Logic Programming

*Christoph Wernhard*

Timed Definite Clause Omega-Grammars

*Neda Saeedloei, Gopal Gupta*

CAMBRIDGE

## Fantastic New Titles in Logic!

### Semiotics of Programming

KUMIKO TANAKA-ISHII

*"Semiotics of Programming* is a monumental work in computational semiotics and a most-welcome contribution to the field of semiotics. The observations contained in this book go well beyond programming languages to address all semiotic systems, including natural language. The careful and clear writing style, combined with a concise glossary, makes this highly important work accessible to the widest possible audience. It will be of great interest and enormous benefit to all researchers and students who are interested in signs and languages, irrespective of their backgrounds."

—*Kyo Kageura, University of Tokyo*

\$90.00: Hb: 978-0-521-51655-6: 232 pp.

\$32.99: Pb: 978-0-521-73627-5

### Logical Foundations of Proof Complexity

STEPHEN COOK  
PHUONG NGUYEN

This book treats bounded arithmetic and propositional proof complexity from the point of view of computational complexity. The first seven chapters include the necessary logical background for the material and are suitable for a graduate course. The result is a uniform treatment of many systems in the literature.

\$80.00: Hb: 978-0-521-51729-4: 496 pp.

### Zariski Geometries Geometry from the Logician's Point of View

BORIS ZILBER

*London Mathematical Society  
Lecture Note Series*

\$60.00: Pb: 978-0-521-73560-5:  
224 pp.

### From Semantics to Computer Science

Essays in Honour of  
Gilles Kahn

EDITED BY  
YVES BERTOT  
GÉRARD HUET  
JEAN-JACQUES LÉVY  
GORDON PLOTKIN

\$140.00: Hb: 978-0-521-51825-3:  
594 pp.

### Codes and Automata

JEAN BERSTEL  
DOMINIQUE PERRIN  
CHRISTOPHE REUTENAUER

*Encyclopedia of Mathematics  
and its Applications*

\$120.00: Hb: 978-0-521-88831-8:  
634 pp.

### Elements of Automata Theory

JACQUES SAKAROVITCH  
TRANSLATED BY  
REUBEN THOMAS

\$145.00: Hb: 978-0-521-84425-3:  
782 pp.

Price subject to change.

(Contents continued from back cover)

- 497 Disjunctive ASP with functions: Decidable queries and effective computation  
MARIO ALVIANO, WOLFGANG FABER AND NICOLA LEONE
- 513 Catching the Ouroboros: On debugging non-ground answer-set programs  
JOHANNES OETSCH, JÖRG PÜHRER AND HANS TOMPITS
- 531 Loop formulas for description logic programs  
YISONG WANG, JIA-HUAI YOU, LI YAN YUAN AND YI-DONG SHEN
- 547 Towards closed world reasoning in dynamic open worlds  
MARTIN SLOTA AND JOÃO LEITE
- 565 A program-level approach to revising logic programs under the answer set semantics  
JAMES P. DELGRANDE
- 581 FO(FD): Extending classical logic with rule-based fixpoint definitions  
PING HOU, BROES DE CAT AND MARC DENECKER
- 597 A complete and terminating execution model for Constraint Handling Rules  
HARIOLF BETZ, FRANK RAISER AND THOM FRÜHWIRTH
- 611 Decidability properties for fragments of CHR  
MAURIZIO GABBRIELLI, JACOPO MAURO, MARIA CHIARA MEO AND JON SNEYERS
- 627 A declarative semantics for CLP with qualification and proximity  
MARIO RODRÍGUEZ-ARTALEJO AND CARLOS A. ROMERO-DÍAZ
- 643 Logic-based decision support for strategic environmental assessment  
MARCO GAVANELLI, FABRIZIO RIGUZZI, MICHELA MILANO AND PAOLO CAGNOLI
- 659 Test case generation for object-oriented imperative languages in CLP  
MIGUEL GÓMEZ-ZAMALLOA, ELVIRA ALBERT AND GERMÁN PUEBLA
- 675 Logic programming for finding models in the logics of knowledge and its applications: A case study  
C. BARAL, G. GELFOND, E. PONTELLI AND T. SON
- 691 Applying Prolog to develop distributed systems  
NUNO P. LOPES, JUAN A. NAVARRO, ANDREY RYBALCHENKO AND ATUL SINGH
- 709 CLP-based protein fragment assembly  
ALESSANDRO DAL PALÙ, AGOSTINO DOVIER, FEDERICO FOGOLARI AND ENRICO PONTELLI
- 725 Formalization of psychological knowledge in answer set programming and its application  
MARCELLO BALDUCCINI AND SARA GIROTTO
- 741 Testing and debugging techniques for answer set solver development  
ROBERT BRUMMAYER AND MATTI JÄRVISALO
- 759 The system Kato: Detecting cases of plagiarism for answer-set programs  
JOHANNES OETSCH, JÖRG PÜHRER, MARTIN SCHWENGERER AND HANS TOMPITS
- 777 Listing of the Technical Communications of the 26th ICLP

## SUBSCRIPTIONS

Theory and Practice of Logic Programming (ISSN 1471-0684), is published bi-monthly in January, March, May, July, September and November by Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge, CB2 8RU, UK/Cambridge University Press, 32 Avenue of the Americas, New York, N.Y. 10013-2473. The subscription price (excluding VAT) of Volume 10, 2010 is £305 net (USA, Canada and Mexico US\$540), for institutions print and electronic or £265 net, (USA, Canada and Mexico US\$445) electronic only, single parts cost £60, \$100 plus postage. Discounted individual rates (print only) are £70, \$120. There is a preferential rate for members of The Association of Logic Programming and The Association of Computing Machinery – please enquire. Six parts form a volume. EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. Orders, which must be accompanied by payment, may be sent to any bookseller, subscription agent or to the publisher: Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge, CB2 8RU, or in the USA, Canada and Mexico to Cambridge University Press Journals Fulfillment Department, 100 Brook Hill Drive, West Nyack, New York 10994-2133. Prices include delivery by air where appropriate. Periodicals postage paid at New York, NY and at additional mailing offices. Japanese prices are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo, 156, Japan. Postmaster: send address changes in USA, Canada and Mexico to Journal of Theory and Practice of Logic Programming, Cambridge University Press, 100 Brook Hill Drive, West Nyack, New York 10994-2133. Claims for missing issues should be made immediately on receipt of the subsequent issues.

## INSTRUCTIONS TO AUTHORS

### *Aims and scope*

Theory and Practice of Logic Programming is an international journal that publishes refereed papers covering both the theory and the practice of logic programming. Among the topics covered are AI applications that use logic programming, logic programming methodologies, specification, analysis and verification of systems, inductive logic programming, multi-relational data mining, natural language processing, knowledge representation, nonmonotonic reasoning, semantic web reasoning, databases, implementations and architectures and constraint logic programming.

TPLP is the sole official journal of the Association for Logic Programming (<http://logicprogramming.org/>) and is offered to its members at a preferential rate. It is also endorsed by SPARC, the Scholarly Publishing & Academic Resources Coalition (URL: [www.arl.org/sparc](http://www.arl.org/sparc)).

### *Submission of manuscripts*

Electronic submissions: The preferred form of submission is to send two email messages, the first one with the information containing the title, the author(s), and the abstract of the submission, and the second one with a Postscript file. Both emails should be sent to the appropriate Area Editor with a copy to the Editor-in-Chief. If in doubt about the most appropriate area, contact the Editor-in-Chief.

Paper submissions: These are also acceptable, but their handling may be delayed (four copies to the appropriate Area Editor and one copy to the Editor-in-Chief).

The submitted manuscripts should not be published or simultaneously submitted to another journal or to a conference. Full versions of important conference papers are welcome. Upon acceptance of an article by the journal, the author(s) will be asked to transfer copyright of the article to Cambridge University Press.

### *Book Reviews*

Books for review, or suggestions for reviews, should be sent to the book reviews editor.

### *Technical notes*

Technical notes should not exceed 5000 words in length, excluding tables, figures, and the bibliography. They are given quick turnaround and should be submitted, preferably electronically, to the Technical Notes editor. Submissions should include an abstract and a reasonable accurate word count for the paper (excluding tables and figures, and the bibliography).

### *Electronic manuscripts*

The publisher encourages the submission of final manuscripts written in LaTeX which can be used for direct typesetting. Authors can download style files from the CUP anonymous ftp site in a packed or unpacked form. The packed form is available from: <ftp://ftp.cambridge.org/pub/texarchive/journals/latex/tp-cls> and the unpacked files are in a directory /unpacked.

### *Layout*

Manuscripts should begin with an abstract of not more than 300 words at the end of which are 4 or 5 keywords. Avoid footnotes whenever possible. Papers should conform to a good standard of English prose; please consult a style guide such as 'The Elements of Style' by Strunk and White, Macmillan, New York. Presenting Programs in one of the following two styles is encouraged: either with identifiers in italic and keywords in bold or entirely in a fixed-width teletype font. Do not begin a sentence with a symbol or identifier name.

### *Illustrations*

Supply these as eps files as the publisher cannot use original TeX files of illustrations. A hardcopy printout needs to be supplied of each illustration.

### *References*

The Harvard system of references should be used. See style files.

### *Proofreading*

Be sure to submit papers in their final form. Typographical and factual errors only may be changed at proof stage. The publisher reserves the right to charge authors for extensive changes to their paper. No page charge is made. The spelling policy of the journal is to follow author's American or British spelling as long as it is consistent within the paper.

### *Offprints*

A free pdf of the published article will be supplied to each first named author. Papers offprints may be purchased upon request.

Please contact the editors for additional information or clarification of anything above.

## COPYING

The journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA, 01923, USA. Organisations in the USA who are also registered with the CCC may therefore copy material (beyond the limits permitted by sections 107 and 108 of the US copyright law) subject to payment to CCC of the per-copy fee of \$16.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 1471-0684/10 \$16.00. Organisations authorised by the Copyright Licensing Agency may also copy material subject to the usual conditions.

ISI Tear Service, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorised to supply single copies of separate articles for private use only. For all other use, permission should be sought from Cambridge UK or the American Branch of Cambridge University Press.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information.

Printed in the United Kingdom at the University Press, Cambridge

# Theory and Practice of Logic Programming

VOLUME 10 PARTS 4–6 JULY 2010

## Contents

### *Regular papers*

- 361 Introduction to the 26th international conference on logic programming special issue  
MANUEL HERMENEGILDO AND TORSTEN SCHAUB
- 365 Automated termination analysis for logic programs with cut  
PETER SCHNEIDER-KAMP, JÜRGEN GIESL, THOMAS STRÖDER,  
ALEXANDER SEREBRENİK AND RENÉ THIEMANN
- 383 Transformations of logic programs on infinite lists  
ALBERTO PETTOROSSİ, VALERIO SENNI AND MAURIZIO PROIETTI
- 401 Swapping evaluation: A memory-scalable solution for answer-on-demand tabling  
PABLO CHICO DE GUZM'AN, MANUEL CARRO AND DAVID S. WARREN
- 417 Threads and or-parallelism unified  
VÍTOR SANTOS COSTA, INÊS DUTRA AND RICARDO ROCHA
- 433 CHR(PRISM)-based probabilistic logic learning  
JON SNEYERS, WANNES MEERT, JOOST VENNEKENS,  
YOSHITAKA KAMEYA AND TAISUKE SATO
- 449 Inference with constrained hidden Markov models in PRISM  
HENNING CHRISTIANSEN, CHRISTIAN THEIL HAVE, OLE TORP LASSEN,  
AND MATTHIEU PETIT
- 465 A translational approach to constraint answer set solving  
CHRISTIAN DRESCHER AND TOBY WALSH
- 481 A decidable subclass of finitary programs  
SABRINA BASELICE AND PIERO A. BONATTI

(Contents continued facing inside back cover)
