British Society of Animal Production

The British Society of Animal Production was established in 1943 with the aim of providing the opportunity for those with an interest in animals and animal production to exchange views, ideas and information.

It has developed into an energetic and active society with over 1300 members from over 30 countries throughout the world. Today as ever the Society is the natural meeting point for all of those with an interest in animal production. Its membership is drawn from research, education, advisory work, commerce and practical livestock industry.

The Society organizes a major scientific meeting once a year and occasional specialist meetings on key issues facing animal production. If you would like to join or receive further information about the Society contact: The Secretary, BSAP, PO Box 3, Penicuik, Midlothian EH26 0RZ.

Animal Production

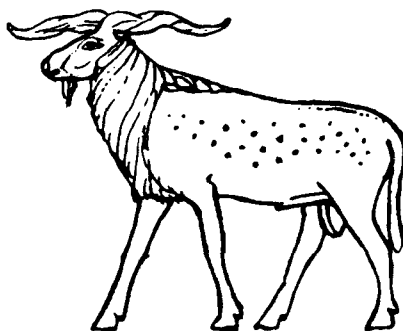

The Society's Journal is *Animal Production* which publishes fundamental and applied research and is a major scientific title of international repute. Original research from basic and applied sciences relevant to all aspects of animal production can be found in it.

Animal Production is published six times a year in two volumes. Annual subscription is £120.00 (or \$240.00 in the USA and Canada) and the price for a single part is £20.00 (or \$40.00) net.

Information regarding subscriptions and sales (current and back numbers of the Journal and the Proceedings) can be obtained from: Durrant Periodicals, Winton Lea, Pencaitland, East Lothian, Scotland EH34 5AY.

Occasional Publications

The British Society of Animal Production's *Occasional Publication* Series contains the full papers presented at certain symposia organized by the Society. A full list of titles is given on the back cover of this Publication. Copies may be obtained from the British Society of Animal Production, PO Box No. 3, Penicuik, Midlothian EH26 0RZ, Scotland.

Inside cover illustration: Ancient Egyptian corkscrew-horned sheep. Beni Hassan ca. 2000 BC (after Griffith, 1896)

LIVESTOCK PRODUCTION AND LAND USE IN HILLS AND UPLANDS

Proceedings of a symposium organized by
THE BRITISH SOCIETY OF ANIMAL PRODUCTION
and held at Newcastle in September 1992
