From LeRoi Jones to Amiri Baraka
The Literary Works
by Theodore R. Hudson

Imamu Amiri Baraka must be considered a leading American literary artist—certainly one of the most individual and provocative, one of the most versatile, one of the busiest, and probably the most influential in the current surge of black nationalism.

This book is the first comprehensive critical study of Imamu Amiri Baraka (LeRoi Jones), the man and his literary works. It provides a much-needed understanding of the content and techniques of his writing.

Theodore R. Hudson is Associate Professor of English at District of Columbia Teachers College in Washington, D.C.

HOW TO SHOW

How to See Theater in Life and Life in Theater
by John Lahr and Jonathan Price

Curtain calls are in order for John Lahr and Jonathan Price as they show how our daily dramas ("playing it cool," "acting up") and other offstage performances help write the script for everything that happens onstage—and off. It's a first-rate performance that will have you rethinking theater and, not surprisingly, life. Illustrated

DIRECTING IN THE THEATRE

BY HUGH MORRISON

At a time when the standing of the director has never been higher there is a real need for a book such as this, which has something to say to professionals and amateurs, teachers and students of theatre and all faced with the problem of "putting on a play." Hugh Morrison, an experienced director on both sides of the Atlantic - and probably Britain's most experienced teacher of directing - sets down the theory and practice of play production, and the essentials of directing from first conceptions to dress rehearsal. With numerous practical examples, he moves from the choice and understanding of a play to staging, setting and lighting, to relationships with actors, acting technique, style, convention and experiment. The result is a handbook for directors, as well as a volume of interest to everyone in the theatre, including the audience. \$6.45

STAGE FIGHTS

BY GILBERT GORDON

The fight in a play is often its dramatic climax, and it is always a scene of maximum excitement by which action and sometimes character are advanced. This handbook, by a champion fencer who has had many years experience as a fight director in both the professional and amateur theatre in England, shows by actual examples how various kinds of fights - with sword and buckler, rapier, bowie knife or quarter staff - achieve their utmost possibilities. The texts of typical fight scenes - from *Cyrano*, *Romeo and Juliet*, *The Mummer Play of St. George and the Dragon*, for instance - are given with detailed movement notes and sometimes music. There are analyses of the weapons and the movements they dictate; there are basic exercises which eventually make possible the effect of spontaneity, safety precautions and the organization of movements into the choreography of fights. \$8.45

REGIONAL THEATRE

The Revolutionary Stage

Joseph Wesley Zeigler

Foreword by Alan Schneider

The development of non-profit regional theatres changed the entire complexion of American theatre. Here is a social history of this revolution which struggled to create and sustain new cultural forms. Zeigler discusses individual theatre companies, institutionalism, decentralization, a National Theatre, and funding programs. "He has an uncommonly intimate view of a sprawling, complex development and a far deeper understanding than others who lately have written on the topic."—Richard L. Coe, *Washington Post* \$12.50

How to read the label on a spotlight

1. We put the Kliegl name first on all our labels because we think it's the single most important guarantee you have of the fixture's reliability and quality. We also tell you what type of fixture it is—floodlight, spotlight, etc.

2. The catalog number of unit is clearly displayed so you don't have to hunt all over for it. Should you need more units, or want to talk to someone at Kliegl about the unit you own, the catalog number is readily accessible.

3. We list the rated voltage and wattage range of the fixture on the label for obvious reasons. You wouldn't want inexperienced personnel to guess at these ratings—so we display them prominently to you.

4. A complete set of approved lamps for the fixture, along with the rated hours and ordering code of each lamp is listed on the label. This makes record-keeping and lamp ordering a cinch.

5. The UL listing is your guarantee of adherence to rigid safety standards. It's harder to make fixtures so that they have a UL listing . . . but it helps to insure your operating safety. Look for the UL label before you buy.

This new type of label is affixed to the yoke of all Kliegl luminaries now coming off the production line.

AN ACCREDITED PROFESSIONAL COLLEGE OF

-the-art-institute-of-chicago-

Would you spend \$5 for a magazine that shows you how to walk on water, raise the dead and make angels of mere mortals?

No miracle is too great for the behind-the-scenes professional.

Yours are the costumes and scenery that set Shaw's *Inferno* ablaze. Whose lighting brings out the best in Olivier. Whose direction keeps the freshman class from falling flat on its face.

And often you manage on what seems little more than a borrowed shoelace and your own creativity.

So to make the task a bit easier, there's THEATRE CRAFTS. The magazine with the professional know-how that helps you turn the impossible into the beautiful.

In each issue you'll discover a host of how-to articles on lighting, set design, make-up, costuming, music, film and so much more!

THEATRE CRAFTS is diagrams and drawings. Candid, no-nonsense dialogues with backstage masters. And the best of the best from their decades of professional experience.

And it's all yours. In the magazine that's all yours.

THEATRE CRAFTS. Especially written for the people who never take a curtain call.

Announcing a major reassessment of Inigo Jones published jointly in a numbered edition of 2,000 sets by University of California Press and Sotheby Parke Bernet

Inigo Jones

THE THEATRE OF THE STUART COURT

Including the complete designs for productions at court, for the most part in the collection of the Duke of Devonshire, together with their texts and historical documentation.

STEPHEN ORGEL and ROY STRONG

Inigo Jones is the most important single figure in the arts of seventeenth-century England. Architect, painter, engineer, designer, connoisseur, collector, author, theoretician, he occupied a key position for nearly half a century at the courts of James I and Charles I. His lifetime saw an aesthetic and cultural revolution, resulting, for a brief period, in the English court becoming the most civilized and sophisticated in Europe. Yet three hundred years after his death he remains a largely unexamined and mysterious figure.

This book, the first major reassessment of Jones's artistic and theatrical work since 1928, presents and analyzes the largest surviving body of material from the hand of Inigo Jones, the designs for masques and plays produced at the Stuart Court, preserved for the most part in the superb collection of the Duke of Devonshire. All the drawings are reproduced here for the first time, many newly identified and dated, together with the texts of the productions for which they were prepared, and all relevant documentary and historical material. The four long introductory essays constitute one of the most important studies of the culture of the English Renaissance to appear in years.

A handsome two-volume boxed set, reproduced on specially manufactured paper which resembles what Inigo Jones himself used. Includes the complete text of about 40 court masques and some 600 plates and figures.
