

# INDEX OF AUTHORS

Aydemir, T. B. . . . .	91	Holroyd, C. . . . .	25	Murphy, M. H. . . . .	178
Beattie, R. M. . . . .	174	Hunter, S. J. . . . .	61	Murtagh, E. M. . . . .	178
Burckhardt, P. . . . .	166	Jenkins, D. J. A. . . . .	39	Rayman, M. P. . . . .	119
Cole, Z. A. . . . .	25	Johnson, C. C. . . . .	119	Reeves, G. K. . . . .	86
Cooper, C. . . . .	25	Kendall, C. W. C. . . . .	39	Rolls, B. J. . . . .	70
Cousins, R. J. . . . .	91	Key, T. J. . . . .	86	Rymer, C. . . . .	144
Devereux, G. . . . .	1	Kopelman, P. . . . .	80	Scott, J. M. . . . .	156
Earl, S. . . . .	25	Krieg, M. A. . . . .	166	Spence, M. . . . .	61
Esfahani, A. . . . .	39	Lanham-New, S. A. . . . .	166	Spencer, E. A. . . . .	86
Fordyce, F. M. . . . .	119	Lichten, L. A. . . . .	91	Strain, J. J. . . . .	156
Garnett, T. . . . .	103	Lodge, J. K. . . . .	95	Venter, C. . . . .	11
Gibbs, R. A. . . . .	144	Logan, K. . . . .	45	Ward, M. . . . .	156
Givens, D. I. . . . .	144	McKeown, P. P. . . . .	45	Wilson, C. P. . . . .	156
Hankey, C. R. . . . .	34	McKinley, M. C. . . . .	45, 61	Woodside, J. V. . . . .	45
Harvey, N. C. . . . .	25	McNeilly, A. M. . . . .	178	Wynn, E. . . . .	166
		McNulty, H. . . . .	156	Young, I. S. . . . .	45
		Meyer, R. . . . .	11	Zimmermann, M. B. . . . .	133
		Millward, D. J. . . . .	103		

**Plenary Lecture 2**

**Chair: D. J. Millward**, *University of Surrey, Guildford, UK*

- Transcription factors, regulatory elements and nutrient–gene communication  
*R. J. Cousins, T. B. Aydemir & L. A. Lichten* 91–94

**Symposium 2: Modern approaches to nutritional research challenges**

**Chairs: J. B. Moore**, *University of Surrey, Guildford, UK*;  
**D. J. Millward**, *University of Surrey, Guildford, UK*

- Targeted and non-targeted approaches for metabolite profiling in nutritional research  
*J. K. Lodge* 95–102

**Plenary Lecture 3**

**Chair: M. Rayman**, *University of Surrey, Guildford, UK*

- Food and the planet: nutritional dilemmas of greenhouse gas emission reductions through reduced intakes of meat and dairy foods  
*D. J. Millward & T. Garnett* 103–118

**Symposium 3: Geographical and geological influences on nutrition**

**Chairs: S. Lanham-New**, *University of Surrey, Guildford, UK*;  
**M. Rayman**, *University of Surrey, Guildford, UK*

- Factors controlling the distribution of selenium in the environment and their impact on health and nutrition  
*C. C. Johnson, F. M. Fordyce & M. P. Rayman* 119–132  
Iodine deficiency in industrialised countries  
*M. B. Zimmermann* 133–143

**Postgraduate Symposium**

**Chairs: K. Hart**, *University of Surrey, Guildford, UK*; **M. Gibbs**, *University of Surrey, Guildford, UK*

- Long-chain *n*-3 PUFA: intakes in the UK and the potential of a chicken meat prototype to increase them  
*R. A. Gibbs, C. Rymer & D. I. Givens* 144–155  
The MTHFR C677T polymorphism, B-vitamins and blood pressure  
*C. P. Wilson, H. McNulty, J. M. Scott, J. J. Strain & M. Ward* 156–165  
Positive influence of nutritional alkalinity on bone health  
*E. Wynn, M. A. Krieg, S. A. Lanham-New & P. Burckhardt* 166–173

**Harrogate International Centre, Harrogate, UK, 4–5 November 2008**

**Conference on ‘Malnutrition matters’**

**Symposium 6: Young people, artificial nutrition and transitional care**

**Chair: M. Stroud**, *Institute of Nutrition, University of Southampton, Southampton, UK*

- Nutrition, growth and puberty in children and adolescents with Crohn’s disease  
*R. M. Beattie* 174–177

**O’Reilly Hall, University College, Dublin, Republic of Ireland, 18–20 June 2008**

**Symposium on ‘The challenge of translating nutrition research into public health nutrition’**

**Session 1: Public health nutrition**

**Chairs: K. Younger**, *Dublin Institute of Technology, Dublin, Republic of Ireland*;  
**H. McNulty**, *University of Ulster, Coleraine, UK*

- Physical activity prescription for public health  
*M. H. Murphy, A. M. McNeilly & E. M. Murtagh* 178–184

# Proceedings of the Nutrition Society

## Directions to Contributors – Concise Version

The *Proceedings of the Nutrition Society* publishes papers presented by invitation and original communications given at the symposia and meetings of the Society. The geographical scope of the journal is international. As a contributor you should note and follow the guidelines set out below. Further information on how the technical content of your paper should be presented is given in the **Directions to Contributors** on the Nutrition Society web pages at <http://www.nutritionociety.org> or contact the Publications Office on +44 20 7605 6555 (telephone), +44 20 7602 1756 (fax) or [edoffice@nutsoc.org.uk](mailto:edoffice@nutsoc.org.uk) (email).

Authors are reminded that their papers will be read by a wide cross-section of the Society's members, many of whom were neither at the meeting nor are they specialists in the subject area. Authors should thus seek to provide an introduction and context to the subject and are encouraged to provide extensive references to allow the reader to further explore the subject, in addition to summarizing the more recent findings, conclusions and hypotheses of their own and other research groups. Authors should avoid unnecessary use of 'jargon' and acronyms and ensure that as far as possible acronyms and abbreviations are defined and explained in the text.

**Papers should be accompanied by a signed statement to the effect that the author accepts the conditions laid down in the full Directions to Contributors.** Contributors of Symposium papers will be asked to complete a copy of the 'Licence to Publish' (in lieu of copyright transfer) at the proof stage.

**Page format.** The *Proceedings of the Nutrition Society* is printed in double-column format (column width of 85 mm) with a text area of 235 × 177 mm.

**Text. Word-processed text provided electronically is required. Text files must be compatible with Microsoft Word 2000 (either in Word format or saved as rich text (.rtf) files.** The typescript should be prepared with 1.5 line spacing and margins (at least 1.5 cm) on each side and with no underlining, bold or italics (except for scientific names). Standard abbreviations (e.g. Fig. and Figs.) and SI units should be used. **This will enable papers to be handled rapidly, and with fewer typesetting errors. All relevant financial and other interests should be declared.**

**Synopsis.** Each paper must commence with a carefully prepared, accurate, informative synopsis, in one paragraph, that is complete in itself and intelligible without reference to text or figures. It should not exceed 250 words.

**Key Words.** Authors should supply two or three key words or phrases (each containing up to three words) for the subject index of the volume.

**Tables.** Tables should be reduced to the simplest form, and should not be used where text or illustrations give the same information. They should be submitted on separate sheets at the end of the article and must carry headings describing their content that are comprehensible without reference to the text.

**Illustrations.** All figures should be of sufficient size and quality to allow for reduction by half or two-thirds. Half-tone photographs are acceptable where they make a real contribution to the text. Colour illustrations can be used at the discretion of the Editor. Figure captions should be typed separately at the end of the main text and numbered corresponding to the relevant figures. For illustrations, preferred software packages are Adobe Illustrator, Adobe Photoshop, Aldus Freehand, Chemdraw or CorelDraw. Preferred formats are TIFF or JPEG, if a TIFF file is not possible save as an EPS or a Windows metafile. Microsoft PowerPoint files are also acceptable.

**References.** References must be based on the numbered (Vancouver) system. **When an article has more than ten authors, only the names of the first three should be given followed by *et al.*; give abbreviated journal titles and conform to the following styles:**

1. Goel V, Cheema SK, Agellon LB, Ooraikul B & Basu TK (1999) Dietary rhubarb (*Rheum rhaponticum*) stalk fibre stimulates cholesterol 7 $\alpha$ -hydroxylase gene expression and bile acid excretion in cholesterol-fed C57BL/6J mice. *Br J Nutr* **81**, 65–71.
2. Jenkins DJ, Kendall CW, Marchie A *et al.* (2003) The effect of combining plant sterols, soy protein, viscous fibres, and almonds in treating hypercholesterolemia. *Metabolism* **52**, 1478–1483.
3. Brandtzaeg P (2003) Role of local immunity and breast-feeding in mucosal homeostasis and defence against infections. In *Nutrition and Immune Function*, pp. 273–320 [PC Calder, CJ Field and HS Gill, editors]. Wallingford, Oxon: CAB International.
4. Stock M & Rothwell NJ (1982) *Obesity and Leanness: Basic Aspects*. London: John Libbey.

Citations should be numbered consecutively in the order in which they first appear in the text using superscript Arabic numerals in parentheses, e.g. 'The conceptual difficulty of this approach has recently been highlighted<sup>(1,2-4)</sup>'. If a reference is cited more than once the same number should be used each time.

**Proofs.** PDF page proofs will be accessible to authors from the typesetter's website and should be returned within 48 hours (by email or Express mail) to:

**Monica Nelson**  
2 Leicester Road, Wanstead  
London  
E11 2DP  
UK  
email [nelsononline@btinternet.com](mailto:nelsononline@btinternet.com)

**Typescripts.** The electronic version of the paper should be emailed to:

**Professor Klaas R Westerterp**  
Proceedings Editor

Vol. 69 No. 1 February 2010

## Contents

### Queen's University Belfast, UK, 17–19 June 2009

#### Conference on 'Dietary management of disease'

##### Session 1: Allergic disease

**Chairs:** **J. Woodside**, *Queen's University Belfast, Belfast, UK*; **M. Ward**, *University of Ulster, Coleraine, UK*

- |   |       |
|---|-------|
| Nutrition as a potential determinant of asthma<br><i>G. Devereux</i>                | 1–10  |
| The challenges of managing food hypersensitivity<br><i>C. Venter &amp; R. Meyer</i> | 11–24 |

##### Session 2: Other diseases

**Chairs:** **K. Cashman**, *University College Cork, Cork, Republic of Ireland*;  
**M. Ward**, *University of Ulster, Coleraine, UK*

- |   |       |
|---|-------|
| Dietary management of osteoporosis throughout the life course<br><i>S. Earl, Z. A. Cole, C. Holroyd, C. Cooper &amp; N. C. Harvey</i> | 25–33 |
|---|-------|

##### Session 3 (Joint with the British Dietetic Association): Management of obesity

**Chairs:** **P. Douglas**, *Chair of British Dietetic Association and University of Ulster, Coleraine, UK*;  
**B. Livingstone**, *University of Ulster, Coleraine, UK*

- |  |       |
|--|-------|
| Weight-loss interventions in the treatment of obesity<br><i>C. R. Hankey</i> | 34–38 |
|--|-------|

##### Session 4: CVD, diabetes and cancer

**Chairs:** **E. Gibney**, *University College Dublin, Dublin, Republic of Ireland*;  
**K. Younger**, *Dublin Institute of Technology, Dublin, Republic of Ireland*

- |   |       |
|---|-------|
| A dietary portfolio for management and prevention of heart disease<br><i>A. Esfahani, D. J. A. Jenkins &amp; C. W. C. Kendall</i>                       | 39–44 |
| Evidence for the use of the Mediterranean diet in patients with CHD<br><i>P. P. McKeown, K. Logan, M. C. McKinley, I. S. Young &amp; J. V. Woodside</i> | 45–60 |
| Diet, insulin resistance and diabetes: the right (pro)portions<br><i>M. Spence, M. C. McKinley &amp; S. J. Hunter</i>                                   | 61–69 |

### University of Surrey, Guildford, UK, 29 June–2 July 2009

#### Conference on 'Over- and undernutrition: challenges and approaches'

##### Plenary Lecture 1

**Chair:** **L. Morgan**, *University of Surrey, Guildford, UK*

- |  |       |
|--|-------|
| Dietary strategies for the prevention and treatment of obesity<br><i>B. J. Rolls</i> | 70–79 |
|--|-------|

##### Symposium 1: Overnutrition: consequences and solutions

**Chairs:** **B. Griffin**, *University of Surrey, Guildford, UK*; **L. Morgan**, *University of Surrey, Guildford, UK*

- |   |       |
|---|-------|
| Foresight Report: the obesity challenge ahead<br><i>P. Kopelman</i>           | 80–85 |
| Obesity and cancer risk<br><i>T. J. Key, E. A. Spencer &amp; G. K. Reeves</i> | 86–90 |
