CONTENTS

ADAMS, M.E. Principal congruences in de Morgan algebras 415

ARAD, ZVI AND FISMAN, ELSA An analogy between products of two conjugacy classes and products of two irreducible characters in finite groups 7

BANK, STEVEN B. AND LANGLEY, J. K. On the oscillation of solutions of certain linear differential equations in the complex domain 455

BAÑUELOS, R. AND ØKSENDAL, B. Exit times for elliptic diffusions and BMO 273

BEHR, HELMUT Finite presentability of arithmetic groups over global function fields 23

BIALOSTOCKI, ARIE On the other $p^\alpha q^\beta$ theorem of Burnside 41

BINDING, P. A. AND SEDDIGHI, K. Elliptic multiparameter eigenvalue problems 215

BONSALL, F. F. Domination of the supremum of a bounded harmonic function by its supremum over a countable subset 471

BOOK REVIEWS 325

BROWNE, PATRICK J. AND SLEEMAN, B. D. Corrigenda: Inverse multi-parameter eigenvalue problems for matrices II 323

BURGESS, W. D. The graded Cartan matrix and global dimension of 0-relations algebras 351

CAMPBELL, COLIN M., see ROBERTSON, EDMUND F.

CAÑADA, A. Nonlinear boundary value problems for elliptic systems 257

CHENG KAI-NAH Finite groups admitting fixed point free automorphisms of order pq 51

CHISWELL, I. M. Length functions and pregroups 57

CIECIURA, G. AND GRUNDLAND, A. M. Geometrical aspects of the system $|\nabla v|^2 = \alpha(v), \nabla^2 v = \beta(v)$ and applications to the nonlinear wave equation 247

COELHO, SONIA P. A note on central idempotents in group rings 69

EDGE, W. L. Geometry relevant to the binary quintic 311

FISMAN, ELSA, see ARAD, ZVI

GARDINER, A. AND PRAEGER, CHERYL, E. Distance-transitive graphs of valency five 73

GOMES, GRACINDA M.S. AND HOWIE, JOHN M. Nilpotents in finite symmetric inverse semigroups 383

GONÇALVES, J. Z., see MANDEL, A.

GOULD, VICTORIA Divisible S-systems and R-modules 187

GREENLEES, J. P. C. Representing Tate cohomology of G-spaces 435

GRUNDLAND, A. M., see CIECIURA, G.

https://doi.org/10.1017/S0013091500026729 Published online by Cambridge University Press

HENNINGS, M. A. A characterisation of C^*-algebras 445

HORWITZ, ALAN L. AND RUBEL, LEE A. The space of totally bounded analytic functions 229

HOWIE, JOHN M., see GOMES, GRACINDA, M. S.

HOWSE, J. R. A sufficient condition for the second derived factor group to be finite 83

JAMIESON, M. J. Application of Wynn's epsilon algorithm to periodic continued fractions 295

JODAR, LUCAS Explicit expressions for Sturm–Liouville operator problems 301

JODAR, L. AND MARITON, M. Explicit solutions for a system of coupled Lyapunov differential matrix equations 427

JOHNSON, D. L. The nonabelian tensor square of a finite split metacyclic group 91

JONES, GARETH A. Some maximal normal subgroups of the modular group 97

KIRWAN, FRANCES Some examples of minimally degenerate Morse functions 289

LANGLEY, J. K., see BANK, STEVEN B.

LAWSON, JIMMIE D. Maximal subsemigroups of Lie groups that are total 479

LAWSON, MARK V. The natural partial order on an abundant semigroup 169

MACBEATH, A. M. Superimprimitive 2-generator finite groups 103

McCOOL, J. On the Magnus–Smelkin embedding 133

MACEDOŃSKA, O. When endomorphisms of G inducing automorphisms of G/V are automorphisms 115

MANDEL, A. AND GONÇALVES, J. Z. Construction of open sets of free k-tuples of matrices 121

MARITON, M., see JODAR, L.

MASON, A. W. Standard subgroups of $GL_2(A)$ 341

MAXSON, C. J. AND MELDRUM, J. D. P. Distributive elements in centralizer near-rings 401

MEHRVARZ, A. A. AND WALLACE, D. A. R. On the automorphisms of the group ring of a unique product group 201

MELDRUM, J. D. P., see MAXSON, C.J.

ØKSENDAL, B., see BAÑUELOS, R.

PILIPOVIĆ, STEVAN Complex inversion formula for the distributional Stieltjes transform 363

POLYRAKIS, IOANNIS A. Strongly exposed points and a characterization of $l_1(\Gamma)$ by the Schur property 397

PORTER, T. Extensions, crossed modules and internal categories in categories of groups with operations 373

THE EDINBURGH MATHEMATICAL SOCIETY

The Edinburgh Mathematical Society was instituted in 1883 for "the promotion and extension of Mathematical Science, Pure and Applied".

Nominations for Ordinary Membership are received at any one Ordinary Meeting and voted upon at the next. Members receive notices of all meetings and may subscribe to the Proceedings at a reduced rate. Further information about membership can be obtained from the Secretary.

The Society's Proceedings, containing papers embodying the results of research that is original in matter or manner, are published in parts. Three parts complete a volume. One volume is issued each year. Series I comprised forty-four volumes published from 1886 to 1926. Series II commenced in 1927.

Papers to be considered for publication should be sent to the Secretary. Manuscripts **(2 copies)** should be typewritten on A4 paper with double spacing and generous margins. The style and arrangement should conform to current practice in the Proceedings. References, including titles of papers, should be given in the form adopted by Mathematical Reviews, footnotes being avoided if possible. Figures should be separated from the text and lettered, ready for photographic reduction; their intended location should be clearly indicated. Manuscripts which are not suitable for submission to the printer will not be accepted. Authors are advised to retain a copy of any material submitted, as the Society cannot accept responsibility for any loss.

A proof is supplied once. Authors are particularly requested to correct and return the proof promptly. Excessive corrections may be charged to authors. Fifty free offprints, and additional copies at cost, will be supplied if ordered on a form returned with the proof.

The *Proceedings* are published at the price of £42.00 ($90) for a volume of three parts.

Enquiries regarding purchase of back numbers should be addressed to

Kraus Reprint Ltd.
Route 100
Millwood
N.Y. 10546
U.S.A.

for volumes of Series I and up to Volume 14 of Series II, and to the publishers

Scottish Academic Press Ltd.
33 Montgomery Street
Edinburgh EH7 5JX

for subsequent issues.

The Society's address is

The Edinburgh Mathematical Society
James Clerk Maxwell Building
The King's Buildings
Edinburgh EH9 3JZ

Communications concerning the Library should be addressed to the Librarian.

All other correspondence should be addressed to the Secretary.
