

SCHIZOPHRENIA

Schizophrenia is a field of continuing importance to psychiatry and its relationships with other medical specialities, and many new findings with regard to its classification, diagnosis and pathology have emerged in recent years.

This symposium will provide a broad update of these issues, but will also tackle some of the treatment and management problems, creating a forum to meet and discuss both the practical and educational needs of clinicians and others in related fields.

Guest speakers will include Dr T. J. Crow, Dr R. M. Murray, Dr J. P. Leff, Dr M. A. Reveley, Dr D. A. W. Johnson and Professor S. R. Hirsch.

The symposium will be held at the Royal Society, 6 Carlton House Terrace, London SW1 on Friday 14 March 1986, commencing at 9.30 am and finishing at approximately 5.00 pm.

The cost of registration will be £30. For further details of speakers and their specific topics, and registration form, please contact **Christine McSorley, at Charter Clinic Chelsea, 1/5 Radnor Walk, London SW3 4PB. Tel: 01-351 1272.**
