

Binding of magnesium ions by isolated cell walls of rumen bacteria and the possible relation to hypomagnesaemia. By T. J. FITT, K. HUTTON, A. THOMPSON and D. G. ARMSTRONG	100A
Effect on type of rumen fermentation and digestibility of feeding whole as opposed to processed barley to sheep. By E. R. ØRSKOV and C. FRASER	101A

*Two Hundred and Forty-seventh Scientific Meeting
Ninety-eighth Scottish Meeting
Joint Meeting with the Biochemistry Society
School of Agriculture, University of Aberdeen
2 JUNE 1972*

Papers without reference marks are published in the Proceedings of the Nutrition Society, those marked with an asterisk in the Biochemical Journal Vol. 129, 12P-28P (1972) and those marked with a dagger in both journals

*Introduction of ¹⁵ N into protein of rats. By P. FÜRST, B. JOSEPHSON and B. PHILLIPSON	103A
*Concentration of different amino acids in the muscle cells of man in relation to food and amino acid infusions. By J. BERGSTRÖM, P. FÜRST and E. VIMNARS	103A
Amino acid metabolism by protein-depleted rats. By R. J. NEALE	103A
*Effect of plane of nutrition on maternal and foetal plasma amino acid concentrations in the sheep. By JOHN S. SLATER and DAVID J. MELLOR	104A
*Turnover rates of myocardial proteins in the rat. By E. B. CHAIN and P. M. SENDER	104A
*Insulin and protein synthesis in the perfused rat heart. By E. B. CHAIN and P. M. SENDER	104A
*Aminoacyl-tRNA synthetases in myocardial tissue. By KEITH GIBSON and PETER HARRIS	104A
The effect of dietary carbohydrate on the flow of nitrogen through the duodenum of the sheep. By N. W. OFFER, R. A. EVANS and R. F. E. AXFORD	104A
Utilization of dietary nucleic acids by sheep. By M. A. RAZZAQUE and J. H. TOPPS	105A
Nucleic acid and protein concentrations in the livers of rats of different ages and on different diets. By R. DAWSON	107A
The effect of dietary protein level on DNA metabolism in some tissues of the growing rat. By S. B. TELFER	108A
The digestion of chloroplasts in the rumen of sheep and the effect of disruption and glutaraldehyde treatment. By JANET WEST and J. L. MANGAN	108A
*Some physical and kinetic properties of deoxycytidylate deaminase from normal and virus-infected mammalian cells. By HILARY A. ROLTON, JOAN BATES and H. M. KEIR	109A
*Comparison of UDP-glucuronyltransferase activities synthesizing 5- and o-β-glucuronides. By H. P. A. ILLING and G. J. DUTTON	110A
†Destauraion of stearic acid by sheep tissue microsomes. By K. W. J. WAHLE and G. A. GARTON	110A
*Uptake of vitamin E by rat small intestinal slices. By COLIN K. PEARSON and ALISON M. LEGGE	111A
*The intestinal absorption of 3-m-phosphatidylethanolamine in the rat. By M. S. HARVEY, J. S. OWEN, G. H. SCOTT and J. D. BILLIMORIA	111A
*The effect of polyoxin D on morphogenesis in <i>Coprinus cinereus</i> . By GRAHAM W. GOODAY	111A
*Inhibition of electron transport in isolated turnip (<i>Brassica campestris</i> L.) mitochondria by inhibitors of protein synthesis. By ANTHONY L. MOORE and S. BRIAN WILSON	111A
*The enzymic hydrolysis of malonated flavone glycosides. By HAROLD E. DAVENPORT and M. SUSAN DUPONT	111A
*Effect of hydroxyproline on extension growth in pea root segments. By DEREK VAUGHAN and EVELYN CUSENS	111A
*Configuration of soil arabinose. By MARTIN V. CHESHIRE and S. J. THOMPSON	111A
Studies on the branched-chain amino acid antagonism in chicks. By K. N. BOORMAN and P. J. BUTTERY	112A
†Uric acid synthesis in the perfused chicken liver. By EILEEN LOCKE, PETER J. BUTTERY and K. NEIL BOORMAN	113A
*Studies on the relationship between concentration of hepatic metabolites and induction of glycolytic enzymes in vivo. By J. M. GUNN and C. B. TAYLOR	114A
*The effect on the activity of some hepatic enzymes of weaning rats on to a diet high in sucrose content. By JENNIFER R. WEBB and E. BAILEY	114A
*Changes in the activity of some kidney enzymes during development of the rat. By CHRISTINE A. HAUSER, ELIZABETH A. LOCKWOOD and E. BAILEY	114A
*Effects of protein deficiency on UDP-glucuronyltransferase activity and phospholipid composition of rat liver microsomal fraction. By ALLAN B. GRAHAM, GEOFFREY C. WOOD and BARRY G. WOODCOCK	114A
*The synthesis of β-corticotrophin-(1-24)-tetracosapeptide (Synacthen) of high specific radioactivity. By D. E. BRUNDISH and R. WADE	114A
*Observations on the fate of ACTH in isolated rat adrenal cell suspensions and the separation of an enriched ACTH-sensitive steroidogenic cell fraction. By GILLIAN BULLOCK, E. A. GILLAM, P. J. LOWRY, C. McMARTIN and J. PETERS	114A
*Structure-activity relations for the 20β-hydroxysteroid NAD ⁺ oxidoreductase activity of cortisone reductase with special reference to ring B. By IAN H. WHITE and JONATHAN JEFFERY	115A
*Structure-activity relations for the 3-hydroxysteroid NAD ⁺ oxidoreductase activity of cortisone reductase with special reference to the A/B junction and ring D. By WILLIAM GIBB and JONATHAN JEFFERY	115A
*An effect of prolactin on prostate adenyl cyclase. By MERIEL P. GOLDER, A. R. BOYNS, MAUREEN E. HARPER and KEITH GRIFFITHS	115A
*Enzymically catalysed binding of amino acids to the protein cyst coat of the ciliate <i>Colpoda steinii</i> . By JACK TIBBS	115A
*Nuclear deoxyribonucleic acid polymerases from landschutz ascites—tumour cells. By VALERIE M. MARSHALL, JOHN BATES and H. M. KEIR	115A
*Applications of a simple staining technique for steroids on thin-layer chromatograms. By JONATHAN JEFFERY	115A
†A method for the analysis of ¹⁵ N-labelled amino acids in the effluent from preparative amino acid analysis columns. By SUSAN E. HAWKES, PETER J. BUTTERY and DYFED LEWIS	115A
†Degradation of sclerotan, a β-(1→3)-glucan, by enzymes from fungi parasitic on sclerotia. By JOHN S. D. BACON, A. H. GORDON and D. JONES	116A
*Double-helical conformation of sulphated polysaccharides and their potential biological function. By F. B. WILLIAMS	117A

Proceedings of the Nutrition Society

CONTENTS OF VOL. 31, No. 3, DECEMBER 1972

SYMPOSIUM PROCEEDINGS

*Two Hundred and Forty-sixth Scientific Meeting
Ninety-seventh Scottish Meeting
Joint Meeting with the Biochemical Society
The Assembly Hall, School of Agriculture, University of Aberdeen
1 JUNE 1972*

THE INFLUENCE OF AMINO ACID SUPPLY ON POLYNUCLEOTIDE AND PROTEIN METABOLISM*
Chairman: Dr C. F. MILLS, MSc, PhD, FRIC, FRSE, Rowett Research Institute, Bucksburn, Aberdeen

An appraisal of techniques for the determination of protein turnover in vivo. By P. J. GARLICK and D. J. MILLWARD	PAGE 249
The pattern of protein turnover in the whole animal and the effect of dietary variations. By D. J. MILLWARD and P. J. GARLICK	257
<i>Chairman: Dr A. FLECK, BSc, MB, ChB, PhD, FRIC, MRCPath, Biochemistry Department, Royal Infirmary, Glasgow</i>	

Measurement of the synthesis of liver-produced plasma proteins with special reference to their regulation by dietary protein and amino acid supply. By R. HOFFENBERG	265
Regulation of protein synthesis in rat liver cell-free systems by amino acids. By M. J. CLEMENS	273
Ribosomal RNA synthesis and function as influenced by amino acid supply and stress. By R. W. WANNEMACHER JR	281
The effect of diet on rat liver nuclear DNA-dependent RNA polymerase. By A. R. HENDERSON	291

*Two Hundred and Forty-eighth Scientific Meeting
University of Surrey, Guildford
6 and 7 JULY 1972*

DIET AS A RISK FACTOR IN CARDIOVASCULAR DISEASE*
Chairman: Dr J. W. T. DICKERSON, PhD, Department of Biochemistry, University of Surrey

Diet in the epidemiology of coronary heart disease. By A. G. SHAPER	297
Atherosclerosis in man: natural history and effects. By G. A. GRESHAM	303
Metabolism of the myocardium at cellular level. By P. HARRIS	307
The role of diet in the management of hyperlipoproteinaemias. By M. C. STONE	311
<i>Chairman: PROFESSOR D. V. PARKE, PhD, FRIC, Department of Biochemistry, University of Surrey</i>	

Epidemiological evidence for the fat theory. By FLAMINIO FIDANZA	317
Dietary fat and cardiovascular disease: possible modes of action of linoleic acid. By A. J. VERGROESEN	323
Sucrose and cardiovascular disease. By J. YUDKIN	331
Glucose tolerance, plasma lipids and atherosclerosis. By H. KEEN	339
<i>Chairman: Dr E. KODICEK, MD, PhD, FIBiol, Dunn Nutritional Laboratory, Cambridge</i>	
Hardness of drinking-water and cardiovascular disease. By MARGARET D. CRAWFORD	347
Modification of the diet in primary prevention trials. By M. J. KARVONEN	355

ABSTRACTS OF COMMUNICATIONS

*Two Hundred and Forty-fifth Scientific Meeting
Barnes Lecture Theatre, The Royal Society of Medicine, Wimpole Street, London
19 MAY 1972*

Losses of vitamin C during machine-peeling and soaking of peeled potatoes. By T. P. EDDY and ANNE STOCK	87A
Changes in the lens epithelium of the rat in vitamin A deficiency. By ANTOINETTE PIRIE and MARY OVERALL	88A
Riboflavin status of the elderly. By G. B. THACKRAY, I. M. SHARMAN and D. E. HYAMS	89A
Feeding patterns in 'resistant' obesity. By G. L. S. PAWAN	90A
A comparison of soft-tissue radiography, reflected ultrasound, skinfold calipers and thigh circumference for estimating the thickness of fat overlying the iliac crest and greater trochanter. By SUSAN F. HAWES, A. ALBERT, M. J. R. HEALY and J. S. GARROW	91A
Electrical resistance and skin reaction to eight electrode jellies. By A. de LOOY and S. JAMES	92A
Sleep after a bedtime beverage. By VLASTA BREZINOVA and I. OSWALD	92A
Nutrition during severe prolonged exercise in trained cyclists. By J. D. BROOKE, G. J. DAVIES and L. F. GREEN	93A
Is there a specific requirement for carbohydrate in the diet? By D. J. NAISMITH and MARY C. CURSITER	94A
Effects of the route of inoculation and of the period of experimental feeding on the survival of chicks given diets containing fish- or meat-meal and inoculated with <i>Salmonella gallinarum</i> . By I. M. SMITH and R. HILL	95A
The survival of chicks inoculated with <i>Salmonella gallinarum</i> and given diets containing extracted meat or fish meals, and meat or fish protein. By R. HILL and I. M. SMITH	96A
Digestion of proteins in the duodenum and the jejunum of growing pigs. By R. BRAUDE, A. G. LOW and J. W. G. PORTER	97A
Sites of disappearance of apparently digestible energy and apparently digestible nitrogen in the digestive tract of cows receiving dried grass-concentrate diets. By M. J. WATSON, G. P. SAVAGE and D. G. ARMSTRONG	98A
Sites of disappearance of apparently digestible cellulose and apparently digestible α -linked glucose polymers in the digestive tract of a cow receiving dried grass-concentrate diets. By M. J. WATSON, G. P. SAVAGE, I. BROWN and D. G. ARMSTRONG	99A

[Continued on p.iii of wrapper]

CAMBRIDGE UNIVERSITY PRESS
Bentley House, 200 Euston Road, London, NW1 2DB
American Branch: 32 East 57th Street, New York, N.Y. 10022
Single parts £4.00 net in U.K. (\$12.00 in U.S.A.)
Subscription price £9.00 net in U.K. (\$27.50 in U.S.A.)

Lampart Gilbert Printers Ltd, Reading, England

* Copies of this complete symposium may be obtained from: The Nutrition Society, Chandos House, 2 Queen Anne St., London, W.1.
The cost is £0.75 (\$2.00) for the Aberdeen symposium and £1.00 (\$2.50) for the Guildford one. Remittance should be sent with orders. Cheques or Postal Orders should be made payable to "The Nutrition Society."
