---

1. Original Articles are accepted on the condition that they have not been published elsewhere.

2. Manuscripts should be typewritten, on one side only of the paper, and well spaced.

3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked and no additional matter should be added.

4. The order for reprints should be sent when returning galley proofs, and for this purpose special forms are supplied, on which the price of the reprints is stated.

5. Authors of Original Communications on Oto-Laryngology in other Journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.

6. Editorial Communications should be addressed to "EDITORS, *Journal of Laryngology*, c/o Messrs OLIVER AND BOYD, Tweeddale Court, Edinburgh."

7. The Annual Subscription is Forty Shillings, post free, and is payable in advance.

8. Single copies of back numbers, both of the present and the previous series, are on sale at Four Shillings each.

9. An Annual Subscription can be commenced with any number of the Journal, and the preceding numbers of the current year can be purchased at Four Shillings each.

## UNITED STATES OF AMERICA

Orders for this Journal, for single parts or yearly subscriptions, can be sent either through a local bookseller, or to Messrs G. E. STECHERT & Co., 31-33 East 10th Street, New York.

### CHEVALIER JACKSON'S INSTRUMENTS FOR ŒSOPHAGOSCOPY, LARYNGOSCOPY, AND BRONCHOSCOPY

New Models as made for Walter G. Howarth, F.R.C.S.

Each Instrument is made in accordance with the details of Chevalier Jackson's most recent models, and each is supplied with a *spare light carrier*, i.e., 2 light carriers and 2 lamps. All the models have been redesigned with a view to rendering them more easily cleansed; all the crevices and corners for the dirt have been taken away.

To ensure better visibility the tips of the forceps are *black*.

The Howarth-Jackson's Instruments are less expensive than other American or English models, and a further economy has been effected by rendering the instrument tips interchangeable, thus reducing the number of forceps handles and tips required.

The lamps are 2.5 volt and more durable than the usual models.

# DISEASES OF THE NOSE AND THROAT

Comprising Affections of the Trachea and Œsophagus

By SIR ST CLAIR THOMSON,  
M.D., F.R.C.P. Lond., F.R.C.S. Eng.

“It was stated dogmatically in the review of the first edition that this is the best book of its kind in the English language, and there is every reason to ratify that opinion now, fifteen years later.”—*British Medical Journal*.

“The very high standard set by Sir St Clair Thomson in the earlier editions has been fully maintained.”—*Lancet*.

“Sir St Clair Thomson’s *magnum opus* has been well described as ‘the laryngologist’s Bible.’ . . . The work as a whole reflects credit on British Laryngology and on its eminent author.”—*The Practitioner*.

“Un livre dont le succès a été mondial. . . . Ce livre est, actuellement, le meilleur traité didactique paru sur la Rhino-Laryngologie.”—*Annales des Maladies de l’Oreille*.

“The work . . . should be in the library of every pædiatrist.”—*British Journal of Children’s Diseases*.

“The book has a position quite beyond challenge.”—*Medical Press and Circular*.

“The illustrations, increased in number, are admirably chosen, many being entirely new. . . . [The author’s] book is but one of the many services he has rendered to laryngology, and reflects the utmost credit on British medicine.”—*Journal of Laryngology and Otology*.

“No master of science could have a more worthy monument.”—Dr BRYSON DELAVAN, the doyen of New York laryngology.

Medium 8vo, 960 pages, with 12 Colour and 12 Black-and-White Plates and 379 Figures in the Text. Cloth gilt, 45s. net.

## DISEASES OF THE THROAT, NOSE, AND EAR

By DAN MCKENZIE, M.D., F.R.C.S.E.

*Second Edition. Three Colour Plates and 254 Figures in the Text.  
Price 45s. net.*

So much of interest and of practical value has been added to our knowledge since the former edition of this work appeared in 1920, that it has been found necessary to enlarge the book by nearly one-third. It has been brought completely up to date in every way.

## THE TONSILS AND ADENOIDS AND THEIR DISEASES

Including the Part they Play in Systemic Diseases

By IRWIN MOORE, M.B., C.M.

Late Honorary Surgeon to the London Throat Hospital for Diseases of the Throat, Nose and Ear, Great Portland Street; and also to the Hospital for Diseases of the Throat, Golden Square, London, W.

*Demy 8vo. Fully Illustrated. Price 21s. net.*

This book is the outcome of much practical private and hospital experience, and embodies a number of papers which the author has contributed to various medical journals during recent years, dealing with the important subject of enlarged or diseased tonsils and adenoids—their menace to health, the operative technique for their removal, and the control of hæmorrhage, during and after removal.

### Pathology and Treatment of the Inflammatory Diseases of **The Nasal Accessory Sinuses**

By Professor Dr M. HAJEK

Translated and Edited by J. D. HEITGER, M.D., and F. K. HANSEL, M.D.

Large Octavo. Two Volumes. 702 pp., with 186 Illustrations.  
Cloth. Price **75s.** net (postage 1s. 3d., abroad 2s. 6d.)

HAJEK'S work on the nasal accessory sinuses has proved to be a lasting contribution to the literature of nose and throat diseases. When the first edition was published nearly thirty years ago it was given the stamp of approval by the most eminent specialists in this branch of medicine. This translation from the latest—the fifth German edition that appeared about a year ago—gives to the English-speaking rhinologist for the first time an opportunity to acquaint himself with the work of this acknowledged Vienna master.

"The publication of this work in English forms a landmark in the history of British rhinology."—*Journal of Laryngology*.

### **Nasal Neurology, Headaches and Eye Disorders**

By GREENFIELD SLUDER, M.D., F.A.C.S.

Clinical Professor and Director of the Department of Laryngology and Rhinology,  
Washington University Medical School

Large 8vo. 428 pp., with 165 Illustrations, mostly original, including  
2 Coloured Plates. Cloth. Price **50s.** net (postage 9d., abroad 1s. 6d.)

OPHTHALMOLOGISTS and neurologists have sought in vain many times for some clue that would help them to clear up a persistent headache that rendered life miserable to their patients. This monograph throws light on this subject, and is sure to help clear up many of these cases.

"The book contains much to interest, not only the rhinologist, but the ophthalmologist, neurologist, and general physician."—*Lancet*.

"Every internist, neurologist, oculist and rhinologist should be conversant with Sluder's stimulating work, the practical application of which would assuredly result in the elimination of much undetected suffering."—*Journal of Laryngology*.

"The arrangement of the book is excellent, and, with the liberal illustrations, the descriptions of treatment technique are easy to follow."—*Edinburgh Medical Journal*.
