*Volume 37*

*Number 3*

*Fall 2013*

*The official journal of  
the Social Science  
History Association*

**Social Science History** seeks to advance the study of the past by publishing research that appeals to its interdisciplinary readership of historians, sociologists, economists, political scientists, anthropologists, and geographers. The journal invites articles that blend empirical research with theoretical work, undertake comparisons across time and space, or contribute to the development of quantitative and qualitative methods of analysis.

As the official journal of the Social Science History Association, *Social Science History* reflects the interests of members who are active in the Association's research networks. However, it also welcomes submissions from the larger international research community of social scientists.

For information about the Association's activities, its research networks, and its annual conference, please see its website at [www.ssha.org](http://www.ssha.org).

**Submit manuscripts** online at [www.editorialmanager.com/ssh](http://www.editorialmanager.com/ssh). Articles should be typed double-spaced, including quotations, notes, information in tables, and the list of references. Brief parenthetical citations are included in the text, all complete references are listed alphabetically at the end of the article, and notes are used only for discursive comments and appear immediately before the list of references. For detailed information on this journal's style, refer to the *SSH* style guide at [history.mit.edu/sites/default/files/SSHStyleGuide.pdf](http://history.mit.edu/sites/default/files/SSHStyleGuide.pdf). The Social Science History Association does not accept responsibility for statements of fact or opinion made by the contributors.
