THE LIBRARY QUARTERLY

A Journal of Investigation in Library and Information Studies

Proposed at an American Library Association conference and established in 1931 by the Graduate Library School at the University of Chicago with a grant from the Carnegie Corporation, *The Library Quarterly* is one of the oldest and most prestigious publications in its field. Charged with the task of providing a "journal of investigation and discussion" for scholars of library studies, *LQ* has performed its mission through the years with a high level of competency, creativity, and sophistication. Today, library and information studies professionals around the world still look to *LQ* for the unique service it provides: the dissemination of research and scholarly articles on all aspects of librarianship.

The Definitive Resource

Other library and information studies journals are almost always devoted to a single aspect of the field rather than the wide-ranging coverage presented by *The Library Quarterly*. Generating discourse in traditional areas of interest and keeping readers abreast of interdisciplinary approaches to developing topics in information management, *LQ* seeks to interpret relevant issues and current research for the librarian, educator, administrator, and others involved with the collection of books and other publications. *LQ* also offers a mix of challenging perspectives that affect academic, public, school, and special libraries. Topics covered include library automation, collection development and management, research methods, professional development trends, and information processing and retrieval techniques. In addition, your subscription will bring you detailed and challenging discussions of the history of libraries as well as their changing role in contemporary societies.

Are you concerned with employment rights as an employee, employer, attorney, labor negotiator, academic, human resources professional, or student? If you are, the Journal of Individual Employment Rights is meant for you.

Journal of
Individual Employment Rights
Kurt H. Decker, Esq. and Dr. Harry Kershen, Editors

Editorial Intent

One of the most rapidly evolving areas of employment law is that of individual employment rights. Employees are asserting newly found rights against their employers arising out of at-will employment erosion, binding commitments present in handbooks and employment policies, public policy violations, privacy intrusions, and so forth.

Individual employment rights is an area of employment law that has no clearly defined boundaries. The

sources of these rights include federal and state constitutions, a multitude of employment statutes, and the common law. Its subject matter is equally varied, including such diverse matters as record keeping and disclosure, health and safety, fair employment practices, alcohol and drug abuse, AIDS, medical screening, employee surveillance, wage and hour standards, union-management relations, employment contracts, dispute contracts, dispute resolution, etc.

The *Journal of Individual Employment Rights'* intent is to serve as a central source for addressing and researching these newly asserted rights as they are debated and developed by courts, academicians, legal practitioners, and human resource professionals. Its emphasis is on the theoretical as well as the practical by serving as a forum for the interchange of ideas and information for all individuals concerned with this developing area.
