Fall 2005

*The official journal of
the Social Science
History Association*

Social Science History seeks to advance the study of the past by publishing research that appeals to its interdisciplinary readership of historians, sociologists, economists, political scientists, anthropologists, and geographers. The journal invites articles that blend empirical research with theoretical work, undertake comparisons across time and space, or contribute to the development of quantitative and qualitative methods of analysis.

As the official journal of the Social Science History Association, *Social Science History* reflects the interests of members who are active in the Association's research networks. However, it also welcomes submissions from the larger international research community of social scientists.

For information about the Association's activities, its research networks, and its annual conference, please see its Web site at www.ssha.org.

Manuscripts (four copies) should be sent to *Social Science History*, Department of History, Carnegie Mellon University, Baker Hall 240, Pittsburgh, PA 15213-3890. All submissions must be typed with *all* written material *double-spaced* (including quotations, notes, information in tables, and the list of references) using only one side of the paper. A word count should be included on the title page. Typewritten lines should not exceed five and one-half inches in length. Brief parenthetical citations are included in the text; all complete references are listed alphabetically at the end of the article; and notes are used only for discursive comments and appear immediately before the list of references. For detailed information on this journal's style, contributors should refer to the *Social Science History* "Style Guide for Authors," which may be downloaded in PDF format from our Web site at www.history.cmu.edu/ssh-journal or requested via e-mail at ssh-journal@andrew.cmu.edu. The Social Science History Association does not accept responsibility for statements of fact or opinion made by the contributors.
