

(Continued from page 2 of cover)

on one side of the paper only and should be a top copy. Although the paper need not be read in the exact form prepared for publication, all relevant data should be included in the copy submitted.

(2) All tables, photographs, diagrams and illustrations which it is desired to publish should be enclosed with the typescript. Illustrations and diagrams must be drawn in Indian ink on smooth Bristol board or on blue graph paper. Legends and inscriptions should be lightly inserted in pencil.

(3) The length of the paper should not exceed one hundred words for each minute of the time allotted to the speaker.

(4) Full references to the literature should be made by giving in brackets the names of all the authors and the year of publication, *e.g.*, (Schettler, Bisbee and Goodenough, 1939)

except when the sentence includes the name or names, *e.g.*,

“Schettler, Bisbee and Goodenough (1939) showed that . . .”.

(5) A complete bibliography of the references mentioned in the text should be given under a cross heading “References” at the end of the paper. References should be in alphabetical order as in the following example:

McCollum, E. V., Orent-Keiles, E. and Day, H. G. (1939). *The Newer Knowledge of Nutrition*. New York: The Macmillan Co.

Woolley, D. W. (1940, 1). *J. biol. Chem.* **136**, 113.

Woolley, D. W. (1940, 2). *Science*, **92**, 384.

Woolley, D. W., Strong, F. M., Madden, R. J. and Elvehjem, C. A. (1938). *J. biol. Chem.* **124**, 715.

Woolley, D. W., Waisman, H. A. and Elvehjem, C. A. (1939). *J. biol. Chem.* **129**, 673.

Zimmerman, H. M. and Burack, E. (1934). *J. exp. Med.* **59**, 21.

All authors' initials should be given and the titles of journals should be abbreviated in accordance with the “World List of Scientific Periodicals”.

(6) The spelling adopted should be that of the Oxford English Dictionary.

Authors of papers, who ask for them, will receive 20 reprints free of charge and may purchase additional copies. Particulars will be found on a slip attached to the proofs.

It is understood that papers read at scientific meetings of The Nutrition Society will not be offered in that form for prior publication in other journals.

### Notice to those Taking Part in Discussions

Those taking part in the discussion and wishing to have their remarks published in the PROCEEDINGS should fill in, legibly, the slips provided at the meeting, adhering as far as possible to the foregoing rules. The summary should be in direct, not reported, speech.
