

THE JOURNAL OF AGRICULTURAL SCIENCE

CONTENTS

Vol. 73 Part 1 August 1969

	PAGE
BAGSHAW, R., VAIDYANATHAN, L. V. and NYE, P. H. An evaluation of the properties of soil potassium influencing its supply by diffusion to plant roots in soil. (With 7 Text-figures)	1
INNES, N. L. and BROWN, S. J. A quantitative study of the inheritance of resistance to bacterial blight in Upland cotton. (With 3 Text-figures)	15
WIENER, GERALD and SAMPFORD, M. R. The incidence of swayback among lambs with particular reference to genetic factors. (With 3 Text-figures)	25
FRAPE, D. L., WOLF, K. L., WILKINSON, J. and CHUBB, L. G. Liver weight and its N and vitamin A contents in piglets from sows fed two levels of protein and food	33
MORRIS, J. G. and PEPPER, PATRICIA M. Intensive beef production from sorghum grain and sorghum stubble. Effects of methods of processing the grain and the stubble, vitamins A, E and K and selenium supplementation and anthelmintic treatment on rate and efficiency of body weight gain and carcass composition	41
HEDDLE, R. G. and SIMPSON, K. Long term effects of fertilizers on grassland. III. Effects on some soil properties. (With 9 Text-figures)	49
WILKINS, R. J. The potential digestibility of cellulose in forage and faeces. (With 1 Text-figure)	57
HEARN, A. B. Growth and performance of cotton in a desert environment. I. Morphological development of the crop. (With 7 Text-figures)	65
HEARN, A. B. The growth and performance of cotton in a desert environment. II. Dry matter production. (With 7 Text-figures)	75
HEARN, A. B. The growth and performance of cotton in a desert environment. III. Crop performance. (With 5 Text-figures)	87
MASON, V. C. Some observations on the distribution and origin of nitrogen in sheep faeces. (With 2 Text-figures)	99
CAWSE, P. A. and WHITE, T. Rapid changes in nitrite after gamma irradiation of fresh soils	113
DRAYCOTT, A. P. The effect of farmyard manure on the fertilizer requirement of sugar beet	119
WIDDOWSON, F. V. and PENNY, A. Effects on barley and kale of NPK fertilizers containing differing proportions of urea and ammonium nitrate, and either triple superphosphate or mono-urea phosphate	125
BUTTERWORTH, M. H. and BLORE, T. W. D. The lactation of Persian Blackhead ewes and the growth of lambs. The effect of three different nutritional regimes during gestation on subsequent growth	133
DAVIES, W. ELLIS. The assessment of herbage legume varieties. IV. The potential of 64-chromosome white clover. (With 2 Text-figures)	139
TROELSEN, J. E. and CAMPBELL, J. B. The effect of maturity and leafiness on the intake and digestibility of alfalfas and grasses fed to sheep. (With 4 Text-figures)	145
SALTER, P. J. and WILLIAMS, J. B. The moisture characteristics of some Rothamsted, Woburn and Saxmundham soils. (With 1 Text-figure)	155
GUNN, R. G. A note on seasonal and age changes in the calcium, phosphorus and magnesium content of the blood of Scottish Blackface ewes, as influenced by calcium and phosphorus supplementation. (With 1 Text-figure)	159

SUBSCRIPTIONS. Two volumes of three parts are published annually. The subscription price is £4 10s. net (U.S.A. \$14.50) per volume (post free); single parts are available at 40s. net (U.S.A. \$6.00) plus postage. Orders or enquiries may be sent to any bookseller or subscription agent, or to Cambridge University Press, P.O. Box 92, London, N.W. 1. (U.S.A. and Canada, Cambridge University Press American Branch, 32 East 57th Street, New York, N.Y. 10022, U.S.A.)
