

# Popular Voices in Latin American Catholicism

**Daniel H. Levine**

Throughout Latin America, observers and activists have found in religion a promise of deep and long-lasting democratization. But for religion to change culture and politics, religion itself must change. Combining rich interviews and community studies in Venezuela and Colombia with analysis of broad ideological and institutional transformations, Daniel Levine examines how religious and cultural change begins and what gives it lasting impact.

# THE DEPENDENCY MOVEMENT

Scholarship and Politics in Development Studies

Robert A. Packenham

"One of those rare books which come along from time to time, it will stir up new thinking and challenge the direction of intellectual life in significant parts of the scholarly community." —Lucian W. Pye, Massachusetts Institute of Technology

In the first comprehensive scholarly treatment of dependency theory, Robert Packenham describes the origins, substantive claims, and methods of various dependency theories. He analyzes the movement comparatively and sociologically as a significant episode in inter-American and North-South cultural relations.

### LATIN AMERICA'S ECONOMY

Diversity, Trends, and Conflicts

*Eliana Cardoso and Ann Helwege*

"This text is a solid piece of work, backed by an extensive bibliography, and very current. A book of this level and caliber is long overdue." — Don Coes, Latin American Institute, University of New Mexico

#### AMERICAS WATCH

The people of Peru are caught in a deadly crossfire between government forces and a brutal insurgent movement, *Sendero Luminoso*, as the two battle for control of the country. Here, Americas Watch investigates corruption and violence in Peru, and urges the United States to re-assess its military proposals for the region through support of a coherent political, military, and economic programme, coordinated and supervised by the Peruvian government.
