TABLE OF CONTENTS

(published August—September, 1961)

Theory of models with generalized atomic formulas. By H. JEROME KEISLER	1
Concerning formulas of the types $A \rightarrow B \vee C$, $A \rightarrow (E\alpha)B(\alpha)$ in intuitionistic formal systems. By RONALD HARROP	27
Splinters of recursive functions. By J. S. ULLIAN	33
Sentences true in all constructive models. By R. L. VAUGHT	39
Corrections to a theory of restricted quantification. By THEODORE HAILPERIN	54
Reviews	57
Twenty-fifth annual meeting of the Association for Symbolic Logic. By DAVID NELSON	93
Abstracts of papers	93
Elections	96
Notice of a meeting of the Association for Symbolic Logic	96
Bases for first-order theories and subtheories. By WILLIAM CRAIG	97
The sentential calculus using rule of inference R_e . By R. B. ANGELL	143
Entailment and relevance. By NUEL D. BELNAP, JR.	144
A generalization of Gödel's notion of constructibility. By AZRIEL LÉVY	147
Reviews	156

THE JOURNAL OF SYMBOLIC LOGIC is the official organ of the Association for Symbolic Logic, Inc., published quarterly, in the months of March, June, September, and December. The Journal is published for the Association by *N.V. Erven P. Noordhoff, Publishers, Groningen, The Netherlands*. The subscription price is six dollars and fifty cents annually, for current subscriptions. New subscriptions must begin with the first number of the current volume, as determined by the date of receipt of the subscription. Completed volumes are sold at eight dollars. Members of the Association of three years standing may purchase back volumes of the Journal at reduced rates for their personal use (except volume 1). THE JOURNAL OF SYMBOLIC LOGIC publishes the official notices of the Division of Logic, Methodology and Philosophy of Science of the International Union of History and Philosophy of Science.

Applications for membership in the Association, subscriptions to the JOURNAL, changes of address, and all business correspondence should be addressed to: **The Association for Symbolic Logic, 190 Hope Street, Providence 6, Rhode Island.**

Articles for publication in the JOURNAL should be sent to *S. C. Kleene, North Hall, University of Wisconsin, Madison 6, Wisconsin* or to *Alice A. Lazerowitz, 31 Langworthy Road, Northampton, Massachusetts* or to *Arthur N. Prior, University of Manchester, Manchester, England* or to *Julia Robinson, 243 Lake Drive, Berkeley 8, California*.

All manuscripts should be typewritten with wide margin and wide spacing between the lines, and the author should keep a complete copy; footnotes should be numbered consecutively and should also be typed with wide margin and wide spacing (preferably on a separate sheet). If an article is of more than thirty-two (printed) pages in length, the editors reserve the right to divide it between two or more, not necessarily consecutive, numbers. Authors receive fifty reprints of each article, with covers, and additional reprints may be purchased if desired.

Attention is called to the fact that the JOURNAL invites submission of (1) original technical papers in the field of symbolic logic, (2) expository papers in this field, (3) philosophical papers which bear upon this field or make use of its methods, and (4) studies in the history of logic in which modern technical developments are taken into account.

Authors and publishers are requested to send, for review, copies of books and reprints of articles in journals to *Alonzo Church, Fine Hall, Princeton University, Princeton, New Jersey*.
