TABLE OF CONTENTS

Algebraische und logistische Untersuchungen über freie Verbände. By PAUL LORENZEN	81
On the rules of proof in the pure functional calculus of the first order. By ANDRZEJ MOSTOWSKI	107
Extensions of the Lewis system S5. By SCHILLER JOE SCROGGS	112
A demonstrably consistent mathematics—Part II. By FREDERIC B. FITCH	121
Arithmetical definability of field elements. By RAPHAEL M. ROBINSON ...	125
On the semantic non-completeness of certain Lewis calculi. By SÖREN HALLDÉN	127
Towards a consistent set-theory. By JOHN MYHILL	130
Reviews	137
Problems in symbolic logic	160
Notice of a meeting of the Association	160

The **JOURNAL OF SYMBOLIC LOGIC** is the official organ of the Association for Symbolic Logic, Inc. It is published at Mount Royal and Guilford Avenues, Baltimore, Maryland, quarterly, in the months of March, June, September, and December. The subscription price is five dollars annually, for current subscriptions. New subscriptions must begin with the first number of the current volume, as determined by the date of receipt of the subscription. Completed volumes are sold at six dollars. Members of the Association of three years standing may purchase back volumes of the **JOURNAL** at reduced rates for their personal use (except volume 1).

Applications for membership in the Association, subscriptions to the **JOURNAL**, and business correspondence should be addressed to:

C. D. Firestone, Secretary-Treasurer, Rutgers University, New Brunswick, New Jersey
or to Mount Royal and Guilford Avenues, Baltimore-2, Maryland.

Articles for publication in the **JOURNAL** should be sent to *Max Black, Goldwin Smith Hall, Cornell University, Ithaca, New York* or to *S. C. Kleene, University of Wisconsin, Madison 6, Wisconsin*. All manuscripts should be typewritten with wide margin and wide spacing between the lines, and the author should keep a complete copy; footnotes should be numbered consecutively and should also be typed with wide margin and wide spacing (preferably on a separate sheet). If an article is of more than thirty-two (printed) pages in length, the editors reserve the right to divide it between two or more, not necessarily consecutive, numbers. Authors receive fifty reprints of each article, with covers, and additional reprints may be purchased if desired.

Attention is called to the fact that the **JOURNAL** invites submission of (1) original technical papers in the field of symbolic logic, (2) expository papers in this field, (3) philosophical papers which bear upon this field or make use of its methods, and (4) studies in the history of logic in which modern technical developments are taken into account.

Authors and publishers are requested to send, for review, copies of books and reprints of articles in journals to *Alonzo Church, Fine Hall, Princeton University, Princeton, New Jersey*.

Entered as second class matter at the post office at Baltimore, Maryland, under the Act of Aug. 24, 1912.
