

# CLAY MINERALS

VOLUME 32, NUMBER 2, JUNE 1997

## CONTENTS

V. A. Drits, L. G. Dainyak, F. Muller, G. Besson and A. Manceau. Isomorphous cation distribution in celadonites, glauconites and Fe-illites determined by infrared, Mössbauer and EXAFS spectroscopies	153
N. Clauer, J. Śródoń, J. Francu and V. Šucha. K-Ar dating of illite fundamental particles separated from illite-smectite	181
J. M. Huggett and H. F. Shaw. Field emission scanning electron microscopy — a high-resolution technique for the study of clay minerals in sediments	197
P. Árkai and D. Sadek Ghabrial. Chlorite crystallinity as an indicator of metamorphic grade of low-temperature meta-igneous rocks: a case study from the Bükk Mountains, northeast Hungary	205
L. A. J. Garvie and R. Metcalfe. A vein occurrence of co-existing talc, saponite, and corrensite, Builth Wells, Wales	223
N. J. Elton, J. J. Hooper and V. A. D. Holyer. An occurrence of stevensite and kerolite in the Devonian Crousa gabbro at Dean Quarry, The Lizard, Cornwall, England	241
G. Christidis and A. C. Dunham. Compositional variations in smectites. Part II: alteration of acidic precursors, a case study from Milos Island, Greece	253
A. Perruchot, C. Dupuis, E. Brouard, D. Nicaise et R. Ertus. L'halloysite karstique: comparaison des gisements types de Wallonie (Belgique) et du Périgord (France)	271
M.-P. Turpault, Q. Ponette, S. Belkacem and C. Nys. Clay transformations following a leaching experiment on an acid brown soil	289
K. Okada, F. Matsushita and S. Hayashi. A square planar $[\text{NiCl}_4]^{2-}$ ion in the layered double hydroxide $\text{Al}_2\text{Li}(\text{OH})_6[\text{NiCl}_4]_{1/2}$	299
E. Morillo, J. L. Pérez-Rodríguez, P. Rodríguez-Rubio and C. Maqueda. Interaction of aminotriazole with montmorillonite and Mg-vermiculite at pH 4	307
<i>Notes</i>	
M. Hagiwara. A method to study the effect of chemical dissolution on the morphology of soil clay	315
K. P. Kitsopoulos. Comparison of the methylene blue absorption and the ammonium acetate saturation methods for determination of CEC values of zeolite-rich tuffs	319
I. Dias, I. González, S. Prates and E. Galán. Palygorskite occurrences in the Portuguese sector of the Tagus basin: a preliminary report	323
<i>Forthcoming Papers</i>	329
