

ANIMAL PRODUCTION

JOURNAL OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

OLIVER & BOYD, LTD.
EDINBURGH AND LONDON

FEBRUARY 1964

VOL. 6 PART 1

INFORMATION FOR CONTRIBUTORS TO *ANIMAL PRODUCTION*

Animal Production publishes papers on original research provided that they have not been and, with the exception of authors' summaries, will not be published elsewhere without the Editors' written permission. Authors' summaries can be reproduced if full acknowledgement of the source is made.

Contributions may be in the field of animal production, or in any related scientific field. Reports on techniques will also be considered but only as appendices to scientific papers.

Manuscripts should be typewritten in double spacing with wide margins and the lines on each page should be numbered. *Two* copies of the typescript (one of illustrations) should be sent to

Dr. Gerald Wiener,
A.R.C. Animal Breeding Research Organisation,
West Mains Road, Edinburgh 9.

Manuscripts are not returned with the proofs; authors should therefore retain copies.

Length of papers should not normally exceed the equivalent of 6,000 words, inclusive of tables, text figures and references.

Illustrations (figures and plates) should be simple and few, otherwise a charge may have to be made to authors. Legends should be typed on a separate sheet.

- (a) Diagrams should be drawn in Indian ink, about twice the size of the finished block, on Bristol board or stout tracing paper. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be inserted in Indian ink. Marginal lettering may, if preferred, be inserted lightly in pencil. Costs of touching-up diagrams found to be incomplete or unsuitable for line-block reproduction will be charged to authors.
- (b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the Editors. Part of their cost may have to be borne by authors.
- (c) Colour plates will not be accepted unless authors bear the cost.

Tables should be as simple and as few as possible; if they are very large or numerous a charge may have to be made to authors. When constructing tables, it would be helpful if authors would take into account the size and shape of the pages of *Animal Production*.

CONTENTS—VOL. 29, No. 4. DECEMBER 1963

Articles

The nutritional physiology of the pregnant ewe, by R. L. REID.

Agricultural synthesis, by A. N. DUCKHAM.

Changes in on-farm extension methods—the relative place of clubs and private practice, by PAUL MCGOWAN.

Letters

Why (Government) extension? ANON.

Management training, by T. R. HANSEN.

Charge for the guns, he said. ANON.

BYDV and "Whiteheads" or "Deadheads" in wheat, by N. H. WHITE; R. D. PRICE and L. L. STUBBS.

Tamarix, by A. MITCHELL.

Talks

Biological nitrogen fixation and the nitrogen status of soils, by C. A. PARKER.

The responsibility of agricultural science in the world food crisis, by O. H. FRANKEL.

On the border—plant pathology and soil science, by D. M. GRIFFIN.

Agricultural problems in East Africa, by E. W. RUSSELL.

Irrigation development and potential in Queensland, by F. B. HAIGH.

Research in food preservation, by S. A. TROUT.

Queensland primary industries, by J. GRIFFITHS DAVIES.

A MONTHLY REVIEW OF VETERINARY SCIENCE

Editor: J. A. LAING Chairman of Editorial Board: SIR JOHN RITCHIE

The British Veterinary Journal

The oldest veterinary periodical in the British Commonwealth. It has always maintained the broadest interest in animal welfare with regular articles on breeding and nutrition

Annual Subscription 70s.

U.S.A. & Canada \$12.00

Recent Papers include:

Melrose: Modern Trends in Animal Health and Husbandry: Artificial Insemination in the Pig—a Review of Its Development. *Tucker*: The Chemotherapy of Avian Salmonellosis with Particular Reference to Furaltadone. *Jayasinghe, Fernando, Brito-Babapulle*: The Electrocardiographic Patterns of *Elephas Maximus*—the Elephant of Ceylon. *Ball, Warren*: The Effect of Long-Term Medication with Sulphaquinoxaline and Ampromilium upon Serial Infections of *Eimeria Adenooides* and *E. Meleagrimitis* in Turkeys. *Saunders, Barron*: Intraocular Tumours in Animals: IV. Lymphosarcoma.

Castration for Meat Production—Russian or Conventional Methods.

ANIMAL BREEDING ABSTRACTS

Bring the latest information from
Sources not always available
To international
Research workers,
And contains review articles of
Current interest as well as
Titles and
Summaries of all important papers on animal breeding

If you live in the British Commonwealth or Republic of Ireland you can have this valuable guide to the latest literature on livestock breeding and production on your desk at the beginning of March, June, September and December for 65s.*

For an extra 25s. you can order your *Animal Breeding Abstracts* printed on one side only, suitable for mounting on cards.

*The subscription in
non-contributing
countries is 140s.

THE EMPIRE JOURNAL OF EXPERIMENTAL AGRICULTURE

THIS JOURNAL offers agricultural research workers a medium for disseminating the records and results of their investigations on the feeding and management of livestock, cultivation and manuring of crops, trial of farm machinery, agricultural economics, and experimental technique.

Vol. XXXI. No. 124

CONTENTS

October 1963

- T. EDEN, J. C. GOWER, and M. L. M. SALGADO: A Factorial Fertilizer Experiment on Coconuts.
- A. R. SEN: Some Techniques of Experimentation with Clonal Tea Based on a Uniformity Trial.
- K. W. HARKER: The Weighing of Zebu Bullocks in Grazing Experiments.
- J. C. M. TRAIL: The Indigenous Poultry of Uganda. I. Growth Rates and Food Consumption Compared with European Breeds. With Plate 10
- J. C. M. TRAIL: The Indigenous Poultry of Uganda. II. Egg Production.
- R. T. CLARKE and J. G. WILLIAMSON: The Control of Coffee-Berry Disease in Kenya by Seasonal Fungicidal Sprays.
- C. R. HORRELL and R. M. BREDON: Management Studies with *Panicum maximum* in Uganda. I. Effect of Cutting Interval and Nitrogen Fertilizer on Yield.
- R. M. BREDON and C. R. HORRELL: Management Studies with *Panicum maximum* in Uganda. II. The Effect of Cutting Interval and Nitrogen Fertilizer on Chemical Composition and Nutritive Value.
- P. R. GOLDSWORTHY and R. HEATHCOTE: Fertilizer Trials with Groundnuts in Northern Nigeria.
- D. P. H. TUCKER: Some Preliminary Results of Long-term Citrus Fertility Trials in the Stann Creek District of British Honduras.
- ADEBOYEJO A. FAYEMI: Effect of Plant Population and Spacing on the Yield of Maize in the Humid Tropics.
- E. A. ATTWOOD: Some Economic Aspects of Agricultural Research.

NUTRITION ABSTRACTS AND REVIEWS

published by the

COMMONWEALTH BUREAU OF ANIMAL NUTRITION

Rowett Research Institute, Bucksburn, Aberdeen, Scotland

A quarterly publication bringing together in abstracts whatever is available of the world literature on human and animal nutrition in all its aspects. Each number contains a Review Article dealing with some subject of current interest.

Volume 34, for 1964, costs 220s. and orders are now being recorded. Certain concessions are available to Commonwealth subscribers; details may be obtained from the Secretary, Nutrition Abstracts and Reviews, at the address shown above.

CONSULTATION SERVICE

The Bureau is prepared, within the limits of its information, to answer enquiries from workers in laboratory research, field investigations or nutritional planning, but not from commercial sources, who do not themselves have access to the necessary literature.

BRITISH POULTRY SCIENCE

CONTENTS OF VOLUME 4, PART 3, SEPTEMBER 1963

- BULLOCK, D. W., MORRIS, T. R. and FOX, S. Protein and energy restriction for replacement pullets.
- KRISTJANSSON, F. K., TANEJA, G. C. and GOWE, R. S. Variations in a serum protein of the hen during egg formation.
- BEER, A. E., SCOTT, M. L. and NESHEIM, M. C. The effects of graded levels of pantothenic acid on the breeding performance of White Leghorn pullets.
- LUSH, I. E. The relationship of egg-laying to changes in the plasma proteins of the domestic fowl.
- BLAKELY, R. M., MACGREGOR, H. I. and HANEL, DONNA. The effect of type of pelleting on growth and metabolisable energy from turkey rations.
- HARMS, R. H. and WALDROUP, P. W. Methionine hydroxy analogue and lysine supplementation of low-protein laying diets.
- FREEMAN, B. M. Gaseous metabolism of the domestic chicken. IV. The effect of temperature on the resting metabolism of the fowl during the first month of life.
- POOLE, H. K. Some effects of estradiol benzoate on development of the reproductive system of the turkey.
- HOLMES, W. B., MASSEY, DOREEN M. and OWEN, PADDIE J. The amino acid composition of broiler cockerels in relation to their dietary amino acid requirement.

This journal is published three times a year. The annual subscription is 60s. (U.S.A. \$10.00), single parts 22s. 6d. (U.S.A. \$3.75). Orders and subscriptions may be sent to any bookseller or direct to the publishers:

VETERINARY ENTOMOLOGY AND ACAROLOGY FOR INDIA

by S. K. Sen and T. B. Fletcher

834 pp. (6¼" × 9½") 1962. 232 figs. 50 plates. 45s. (\$6.00)

This publication by the two eminent Entomologists deals with the insects, ticks and mites which are of great importance from the veterinary point of view. They have been classified to suit the needs of the veterinary workers. Bionomics, breeding techniques and measures for control of important species have been exhaustively dealt with. Exhaustive lists of reference to literature have been given at the end of each species. This truly informative book aims to meet the requirements of all categories of veterinary workers whether in field work, research or teaching.
